

## Activity 1.1.2 Simple Machines Practice Problems

### Procedure

Answer the following questions regarding simple machine systems. Each question requires proper illustration and annotation, including labeling of forces, distances, direction, and unknown values. Illustrations should consist of basic simple machine functional sketches rather than realistic pictorials. Be sure to document all solution steps and proper units. All measured values contain three (3) significant digits.

All problem calculations should assume ideal conditions and no friction loss.
