

STAR SOLDIER

The background of the entire image is a vibrant space battle. Three starships are engaged in combat. At the top left, a smaller, more intricate ship with a complex, almost insect-like structure is firing a blue beam. In the middle right, a sleeker, elongated ship is also firing a blue beam. At the bottom, a large, flat, rectangular ship with a grid-like pattern on its surface is firing a powerful blue beam. The beams converge towards the center of the image. The background is a deep blue space filled with white stars and some nebulae.

George Chetwynd Griffith,2020-09-28 Ah what a thing it would be for us if his Inca Highness were really only asleep as he looks to be Just think what he could tell us how easily he could re create that lost wonderland of his for us what riddles he could answer what lies he could contradict And then think of all the lost treasures that he could show us the way to Upon my word if Mephistopheles were to walk into this room just now I think I should be tempted to make a bargain with him Do you know Djama I believe I would give half the remainder of my own life whatever that may be to learn the secrets that were once locked up in that withered desiccated brain of his The speaker was one of two men who were standing in a large room half study half museum in a big old fashioned house in Maida Vale Wherever the science of arch ology was studied Professor Martin Lamson was known as the highest living authority on the subject of the antiquities of South America He had just returned from a year s relic hunting in Peru and Bolivia and was enjoying the luxury of unpacking his treasures with the almost boyish delight which under such circumstances comes only to the true enthusiast His companion was a somewhat slenderly built man of medium height whose clear olive skin straight black hair and deep blue black eyes betrayed a not very remote Eastern origin Dr Laurens Djama was a physiologist whose rapidly acquired fame he was barely thirty two would have been considered sounder by his professional brethren if it had not been as they thought impaired by excursions into by ways of science which were believed to lead him perilously near to the borders of occultism Five years before he had pulled the professor through a very bad attack of the calentura in Panama where they met by the merest traveller s chance and since then they had been fast friends They were standing over a long packing case some seven feet in length and two and a half in breadth in which lay at full length wrapped in grave clothes that had once been gaily coloured but which were now faded and grey with the grave dust the figure of a man with hands crossed over the breast dead to all appearances and yet so gruesomely lifelike that it seemed hard to believe that the broad muscular chest over which the crossed hands lay was not actually heaving and falling with the breath of life The face had been uncovered It was that of a man still in the early prime of life The dull brown hair was long and thick the features somewhat aquiline and stamped even in death with an almost royal dignity The skin was of a pale bronze though darkened by the hues of death Yet every detail of the face was so perfect and so life like that as the professor had said it seemed to be rather the face of a man in a deep sleep than that of an Inca prince who must have been dead and buried for over three hundred years The closed eyes though somewhat sunken in their sockets were the eyes of sleep rather than of death and the lids seemed to lie so lightly over them that it looked as though one awakening touch would raise them
