of them like Sally Bassett who helped poison her granddaughter's enslavers in Bermuda or Giulia Tofana who sold her name brand concoction to women wanting to be rid of their abusive or otherwise undesirable husbands. Other stories though including that of Yiya Murano one of Argentina's most notorious swindlers and serial killers or the terrifying Nurse Jane Toppan may prove less palatable. Organized into thematic chapters based on the women's motives, the book also includes an illustrated primer that delves into the origins and effects of common poisons throughout history as well as a foreword by Holly Frey and Maria Trimarchi, creators and hosts of the podcast *Criminalia*. It is a treat for true crime fans, feminist history buffs, and any curious readers fascinated by the more macabre side of human nature.

TRUE CRIME GALORE Women can do anything, even commit murder. This thoughtfully researched and insightful survey into the lives of the poisoners explores the toxic events that put these women in the spotlight, the deceptive methods and substances they used, and their legacies today. The *League of Lady Poisoners* is a thrilling deep dive for fans of true crime podcasts, docuseries, and books.

EYE CATCHING GIFT Illustrator and author Lisa Perrin's beautiful and distinctive art style blends the romantic allure of these pop culture legends with the disturbing and twisted facts of their lives. The hardcover is decorated with shining foil, and the interior contains clever Victorian-inspired lettering borders and diagrams that complement the text. Readers and illustrated book collectors will love all the details honoring the Golden Age of Poison.

FASCINATING DIVERSE STORIES OF WOMEN WHO KILL These women lived in different time periods and had varying cultural and socioeconomic backgrounds that influenced their motives. Some acted out of defiance like the Angel Makers of Nagyr v, who taught women how to dispose of their abusive husbands in Hungary. Others schemed their way to power and money, including Empress Wu Zetian of China and Belle Gunness, who killed more than 14 people in the American Midwest. Discover all their stories in this engaging collection if you have the stomach for them. Perfect for Lovers of true crime podcasts like *My Favorite Murder*, *Morbid*, and *Criminalia*. Readers who enjoy historical biographies, especially of women. Readers who love a good villain, antihero, or underdog story. Murder mystery fans. Art lovers and illustrated book collectors. Murder in an Irish Cottage Carlene O'Connor, 2020-02-25 In a remote and superstitious village in County Cork, Ireland, Garda Siobh n O'Sullivan must solve a murder where the prime suspects are fairies. Family is everything to Siobh n, which now includes her fianc Macdara Flannery. So when his cousin Jane frantically calls for help, the two garda rush from Kilbane to the rural village where Jane and her mother have recently moved. When they arrive, they find Jane in a state outside the cottage. Inside, Aunt Ellen lies on her bed in a fancy red dress, no longer breathing. A pillow on the floor and a nearby teacup suggest the woman has been poisoned and smothered. The local villagers, who are devout believers in Irish folklore, insist the cottage is cursed, built on a fairy path. Although the townsfolk blame malevolent fairies, Siobh n and Macdara must follow the path of a murderer, all too human, but

The First Forensic Hanging Summer Strevens, 2018-09-30 For the sake of decency gentlemen don't hang me high This was the last request of modest murderess Mary Blandy who was hanged for poisoning her father in 1752 Concerned that the young men in the crowd who had thronged to see her execution might look up her skirts as she was turned off by the hangman this last nod to propriety might appear farcical in one who was about to meet her maker Yet this was just another aspect of a case which attracted so much public attention in its day that some determined spectators even went to the lengths of climbing through the courtroom windows to get a glimpse of Mary while on trial Indeed her case remained newsworthy for the best part of 1752 for months garnering endless scrutiny and mixed reaction in the popular press Opinions are certainly still divided on the matter of Mary's intention in the poisoning of her father and the extent to which her coercive lover Captain William Cranstoun was responsible for this murder by proxy Yet Mary Blandy's trial was also notable in that it was the first time that detailed medical evidence had been presented in a court of law on a charge of murder by poisoning and the first time that any court had accepted toxicological evidence in an arsenic poisoning case The forensic legacy of the acceptance of Dr Anthony Addington's application of chemistry to a criminal investigation is another compelling aspect of The First Forensic Hanging
