Research Advances in Alcohol and Drug Problems H.M. Annis,H.D. Cappell,F.B. Glaser,M.S. Goodstadt,L.T. Kozlowski,2013-11-11 This is the tenth volume in the Research Advances series and the seventh published by Plenum Press Volume 10 is another omnibus volume providing specialized and advanced reviews in a number of areas related to the use of alcohol illicit drugs and tobacco We include also a brief history of the Center for Alcohol Studies that gives Mark Keller s unique perspective on this noted institution Two of the chapters are decidedly longer than the others very long chapters have appeared occasionally in the past and we think that it is one of the strengths of the series that we are able to

accommodate such reviews Again the editorial board has changed After several years of service Reginald G Smart has stepped down New to the board are Helen M Annis Michael S Goodstadt Lynn T Kozlowski and Evelyn R Vingilis This is likely to be the sole volume for which Goodstadt is on the board since before completion of this volume he moved from the Addiction Research Foundation to the Center for Alcohol Studies Rutgers University

Coping with Alcohol and Drug Problems Jim Orford, Guillermina Natera, Alex Copello, Carol Atkinson, Jazmin Mora, Richard Velleman, Ian Crundall, Marcela Tiburcio, Lorna Templeton, Gwen Walley, 2013-01-11

What difference does culture make Coping with Alcohol and Drug Problems The Experiences of Family Members in Three Contrasting Cultures aims to deepen and extend understanding of the experiences of family members trying to cope with the excessive drinking or drug taking of a relative Comprehensive and thoroughly up to date this book draws on the results of the cross cultural study of alcohol and drug problems in the family and places these results within the broader context of the international literature on the subject By investigating the similarities and differences in the experiences of family members in three parts of the world the authors reveal results which have far reaching implications for professional intervention and prevention Subjects covered include models of understanding how families continue to be pathologised and misunderstood how family members cope an integrated view of alcohol and drug problems in the family ways of empowering family members This book aims to demonstrate the possibility of a constructive alliance between professionals substance misusing relatives and the affected family members by thoroughly investigating the dilemmas that face family members and the lack of support they experience This fascinating insight into the impact of alcohol and drug problems on family members will be a valuable resource for all those who are interested in substance misuse in family and cultural contexts and particularly those who are interested in the treatment of alcohol and other drug problems

Counselling for Alcohol Problems Richard Velleman, 2011-02-07

Counselling for Alcohol Problems third edition is a practical and bestselling guide to working with people who have problems with their use of alcohol It is the key book recommended by most alcohol counselling courses in the UK including the Scottish national alcohol counsellors training scheme The author provides clear guidance for counsellors and demonstrates the need to treat every client as an individual attempting to understand and therefore enable the client to understand what they are doing and why This new edition includes New content on the current political social and counselling context surrounding alcohol use A wider range of case studies New ideas that help students and trainees develop the skills and strategies they need for working with their clients Further guidance for generic or non alcohol counsellors who face alcohol problems with their clients This third edition is an invaluable resource for practitioners both those specialising in work with alcohol misusers and those who encounter problem drinkers in the context of a more general counselling practice

Alcohol Problems and

Solutions Stephen Gislason, Humans like to become intoxicated Fermented liquid foods that contain alcohol are used worldwide in parties celebrations and rituals It is common for fermented foods to be included in the daily diet Small doses of fermented foods relax inhibitions and can feel pleasant in social situations Larger doses are toxic to the brain and disable the drinker The regular abuse of alcoholic beverages is called alcoholism The stigma attached to the term alcoholism remains an obstacle to understanding this common problem There is a tendency to deny or to normalize excessive drinking The use of alcoholic beverages is woven into the fabric of society and excessive use of alcohol is often considered normal Ingestion of alcoholic beverage in excess produces many disease patterns involving every part of the body Even moderate alcohol abuse distorts the personality emotions and intellect of the social drinker The cognitive impairments and personality distortion are a direct consequence of brain dysfunction cause by ethanol and other chemical pathogens in alcoholic beverages Alcohol abuse is considered to be an addiction and some argue about calling alcoholism a disease The term addiction refers both the compulsive aspect of drinking and also to the harm drinking causes The drinker harms himself his family and the community at large A reasonable person will notice the harm he or she is causing and will seek to remedy the problem An addict ignores the harm and remains devoted to ingesting alcoholic beverages no matter how much harm is caused

Alcohol and Drug Problems in Women Oriana Josseu Kalant, 2013-11-11 Over the last decade the world has experienced a growing interest in problems associated with the nonmedical use of drugs This interest has corresponded to a real growth in the extent diversity and social impact of the use of alcohol and drugs in many societies As a result the amount of research and writing on the subject of drug problems has greatly increased and it has become very difficult for one individual to keep up with all the relevant literature There is thus an acute need in the field for critical reviews that assess current developments and the present series is intended to fill this need The series is not to be an annual review in the usual sense The aim is not to cover all the work reported during the preceding year in relation to a fixed selection of topics Rather it is to present each year evaluative papers on topics in which enough recent progress has been made to alter the general scope in a particular area Owing to the multidisciplinary nature of problems of drug use and dependence the papers published in each volume will be drawn from several disciplines However some volumes may be devoted to one particular problem with individual reviews and papers examining various aspects of it The composition of the editorial board and the international advisory board reflects these objectives The editors are members of the senior scientific staff of the Addiction Research Foundation of Ontario
