The Responsible Administrator Approach Administrative:

The Responsible Administrator Terry L. Cooper, 2012-02-28 Praise for the Fifth Edition of *The Responsible Administrator* Cooper's fifth edition is the definitive text for students and practitioners who want to have a successful administrative career. Moral reasoning as Cooper so adeptly points out is essential in today's rapidly changing and complex global environment. Donald C. Menzel, president, American Society for Public Administration and professor emeritus, public administration, Northern Illinois University. *The Responsible Administrator* is at once the most sophisticated and the most practical book available on public sector ethics. It is conceptually clear and jargon free, which is extraordinary among books on administrative ethics. H. George Frederickson, Stone Distinguished Professor of Public Administration, University of Kansas. Remarkably effective in linking the science of what should be done with a prescriptive for how to actually do it, the fifth edition of Cooper's book keeps pace with the dynamic changes in the field, both for those who study it and those who practice it. The information presented in these pages can be found nowhere else, and it is information we cannot ethically afford to ignore. Carole L. Jurkiewicz, John W. Dupuy Endowed Professor and Woman's Hospital Distinguished Professor of Healthcare Management, Louisiana State University. E. J. Critical Social Theory in Public Administration Richard C Box,2015-03-26 The essential premise of critical social theory is that contemporary society is neither democratic nor free but that modern global capitalism creates a citizenry satiated with consumer goods unaware of alternative ways of living In the public sector critical theory suggests that governing systems are influenced if not controlled by the wealthy and powerful leaving public professionals to decide whether to serve those interests or the interests of a broader public This book provides a framework for the application of critical social theory in public administration Its goal is to encourage awareness among public administration scholars and practitioners of social conditions that tend to shape and constrain scholarship practice teaching and social change At a time when concern for public interest and a civil society have largely been displaced by the goals of economic efficiency and the New Public Management Critical Social Theory in Public Administration presents a viable alternative that incorporates the latest views of postmodern thinking with the central elements of critical social theory

Fire Service Ethics Advantage Package includes Content Instruction Student Learning Materials Textbook Assessments Flashcards eBook Analytics Slides Available in most packages contact us to confirm availability

Fire Service Ethics is the first textbook developed specifically to help fire service personnel manage ethical dilemmas. No other profession places such a discretionary burden on its practitioners as the fire service. The military, law enforcement, medical profession, and legal profession all provide a robust set of ethical policies and guidelines to their members. Fire Service Ethics provides a foundation for creating ethical boundaries and will aid fire fighters and fire service leaders in dealing with complex issues. Fire Service Ethics meets and exceeds the course outcomes and course objectives for the National Fire Academy FESHE Model Curriculum Bachelor's Non Core course entitled Fire Service Ethics C0303. It is also well suited for fire officer and administration development programs. Fire Service Ethics is divided into four sections: Section 1 Foundations, Section 2 Ethics on the Line, Section 3 Administrative Ethics, and Section 4 Applied Ethics.

Section 1 Foundations provides a concise overview of ethical systems and human behavior. Chapter 1 is recommended for all readers as it addresses the important question of how ethics are relevant to the fire service. Chapters 2, 3, and 4 are grounded in an academic approach to ethics and are specifically intended to be used in college courses. Section 2 Ethics on the Line addresses issues directly related to rank and file fire fighters and company officers. The section also deals with diversity first as an abstract concept and then as it applies specifically to the fire service. Section 2 is intended to serve dual purposes. First, it is designed to be included in an academic curriculum aimed at future fire fighters. Secondly, Section 2 combined with Section 4 encompasses the majority of material appropriate for inclusion in fire service training programs. Section 3 Administrative Ethics explores the ethical issues faced by fire chiefs and senior administrative personnel. Included within the section are chapters on the building and maintenance of an ethical work culture, the ethical responsibilities associated with administration, and finally, ethics within the law. Section 3 combined with Sections 1 and 4 is especially appropriate for fire officer development programs and collegiate programs in fire administration. Section 4 Applied Ethics explores the application of ethics at the personal and department level. This section includes chapters on making ethical decisions, mechanisms by which unethical behavior is addressed, and a review of current ethical issues affecting local fire departments. Section 4 is universal in its application and should be used in all collegiate programs as well as in firefighter and fire officer training programs.
