

The background of the slide is a photograph of a modern Korean cityscape. In the foreground, a wide river flows under a concrete bridge. Several people are walking on the bridge and on the paved banks. In the middle ground, there are lush green trees. In the background, several tall skyscrapers are visible, including one with a yellow construction crane attached to its side. The sky is clear and blue.

Political Economy of Financial Systems Jitendra Uttam, 2025-01-17 As the world grapples with financial instability caused by a massive infusion of pandemic era liquidity and its subsequent withdrawal scholars are raising doubts again regarding the merits behind the unhindered push for liberalization and deregulation In the search for a convincing way out from recurring financial turbulences this book revisits the past experiences of financial stability presided over by long term credit supply largely through bank based intermediation The two Asian countries South Korea and India instituted wide ranging financial repression through an identical Credit based Price administered System but surprisingly they witnessed contrasting outcomes While accounting for the yawning performance gap between India and South Korea this book introduces a political economy approach to better understand the efficiency of financial systems It argues that the Functional Efficiency of finance is not solely dependent on the structures of finance alone but it also lies in the wider political economic context and its relations with the market

Two Crises, Different Outcomes T. J. Pempel, Keiichi Tsunekawa, 2015-05-06 Two Crises Different Outcomes examines East Asian policy reactions to the two major crises of the last fifteen years the global financial crisis of 2008 9 and the Asian financial crisis of 1997 98 The calamity of the late 1990s saw a massive meltdown concentrated in East Asia In stark contrast East Asia avoided the worst effects of the Lehman Brothers collapse incurring relatively little damage when compared to the financial devastation unleashed on North America and Europe Much had changed across the intervening decade not least that China rather than

Japan had become the locomotive of regional growth and that the East Asian economies had taken numerous steps to buffer their financial structures and regulatory regimes This time Asia avoided disaster it bounced back quickly after the initial hit and has been growing in a resilient fashion ever since The authors of this book explain how the earlier financial crisis affected Asian economies why government reactions differed so widely during that crisis and how Asian economies weathered the Great Recession Drawing on a mixture of single country expertise and comparative analysis they conclude by assessing the long term prospects that Asian countries will continue their recent success *From Shock to Therapy*

Grzegorz W. Kolodko, 2000-04-20 The great transformation undertaken by the countries of the former communist bloc exhibits immense diversity in terms of initial conditions shifting target models consistency paths speed progress to date and economic performance This is the first comprehensive study of the economics and politics of postsocialism to be written by an author so deeply and so successfully involved in the reform process Many people writing on the reform process offer advice that is not really credible as a member of the Polish government and architect of the successful Polish reform Grzegorz Kolodko actually solved many of the difficulties of transition which allows him to come forward here with policy proposals and long term forecasts The treatment of the transition from plan to market as a historical process is an important feature of the book The author claims that there is no historical fatality that sound policies in the present are more determining than the favourable or unfavourable legacies of the past The aim is to create and maintain the conditions for sustainable growth and durable development *Pakistan's Democratic Transition* Ishtiaq Ahmad, Adnan Rafiq, 2016-11-03 Politics in Pakistan has traditionally been understood in the context of civil military relationship In May 2013 for the first time in history Pakistan saw an elected government complete a full term in office and transfer power through the ballot box to another civilian government In view of such an important development this book offers critical perspectives on Pakistan's current democratic transition and its implications for national politics security and foreign policy It critically analyses the emerging political trends in the country including their underlying sources attributes constraints and prospects of sustainability Drawing on history diverse theoretical perspectives and empirical evidence it explains the dynamics of the democratic process contested borders and spaces and regionalism Contributions are from 13 prominent scholars in the field who provide a wide ranging analysis of Pakistan's contemporary national and regional challenges as well as the opportunities they entail for its viability as a democratic state Taking the debate on Pakistan beyond the outmoded notions of praetorian politics and security the book explores the future prospects of civilian supremacy in the country It will be of interest to students and scholars of South Asian Politics Political Sociology and Security Studies as well as policy makers diplomats security experts and military professionals **Contemporary North Korea** Ian Jeffries, 2009-09-10 This book provides full details of contemporary economic and political developments in North Korea since late 2005 Key topics covered include the succession family visits human rights nuclear capability and intentions recent initiatives in international relations and
