

The book cover features a dark, atmospheric illustration. In the upper left, a large, pale, cracked moon hangs in a dark sky. The background is a deep blue and black, with red, blood-like splatters scattered across it. In the lower right, a figure in a dark, flowing robe is shown, with a pale, skull-like face visible. The figure appears to be emerging from or standing in a dark, swirling mass. In the lower left, there are dark, skeletal tree branches and a small, dark, pointed structure. The overall mood is mysterious and macabre.

Reincarnation in Tibetan Buddhism Ruth Gamble, 2018-07-09 Reincarnation in Tibetan Buddhism examines how the third Karmapa hierarch Rangjung Dorj 1284-1339 transformed reincarnation from a belief into a lasting Tibetan institution Born the son of an itinerant low caste potter Rangjung Dorj went on to become a foundational figure in Tibetan Buddhism and a teacher of the last Mongolian emperor He became renowned for his contributions to Buddhist philosophy literature astrology medicine architecture sacred geography and manuscript production But as Ruth Gamble demonstrates his most important legacy was the transformation of the Karmapa reincarnation lineage to ensure that after his death subsequent Karmapas were able to assume power in the religious institutions he had led The inheritance model of reincarnation instituted by Rangjung Dorj changed the Tibetan Plateau s power relations which until that time had been based on family associations and created a precedent for later reincarnate institutions including that of the Dalai Lamas Drawing on Rangjung Dorj s hitherto untranslated autobiographies and autobiographical songs this book shows that his reinvention of reincarnation was a self conscious and multi faceted project made possible by Rangjung Dorj s cultural social and political standing and specific historical and geographical circumstances Exploring this combination of agency and historical coincidence this is the first full length study of the development of the reincarnation institution

GOING BELOW THE WATER'S EDGE RONALD S. FEHRIBACH, 2014-10-27 Have we been someone before Is there a cycle to life that passes personality and society's characteristics through the generations much like our physical characteristics are passed by various chemical configurations What about many major religions that base their belief on reincarnation or past lives and often times their leadership on someone's presupposed link to the past What about

all those individuals claiming to have been someone before What is the possibility that you have been someone before and if so who How does one find out about one s own possibilities and one s impact on today s existence Many feel that meditation is the way to enter this world of deep inner knowledge and to bring awareness of this past cycle Hypnosis has also been used to offer an abundance of examples to illustrate the possibility of our having been here before To get past our immediate existence and regress through our birth to a world of spirits from the past is indeed an adventure if such a world even exists Please join me now for a journey into an unseen world Frankissstein Jeanette Winterson,2019-10-01 This thought provoking and unabashedly entertaining novel defies conventional expectations and exists brilliantly and defiantly on its own terms Sarah Lotz New York Times Book Review Lake Geneva 1816 Nineteen year old Mary Shelley is inspired to write a story about a scientist who creates a new life form In Brexit Britain a young transgender doctor called Ry is falling in love with Victor Stein a celebrated professor leading the public debate around AI and carrying out some experiments of his own in a vast underground network of tunnels Meanwhile Ron Lord just divorced and living with his mom again is set to make his fortune launching a new generation of sex dolls Across the Atlantic in Phoenix Arizona a cryogenics facility houses dozens of bodies of men and women who are medically and legally dead but waiting to return to life Since her astonishing debut Oranges Are Not the Only Fruit Jeanette Winterson has achieved worldwide acclaim as one of the most daring and inventive writers of our time Elle In Frankissstein she shares an audacious love story that weaves together disparate lives into an exploration of transhumanism artificial intelligence and queer love Longlisted for the Booker Prize **The Reincarnation Sensation** Norman L. Geisler,J. Yutaka Amano,2004-06-21 One in every four Americans believes in reincarnation according to a recent Gallup poll Why does our society have such a growing preoccupation with death and past life experiences Authors Norman L Geisler and J Yutaka Amano conclude that among the reasons for the popularity and influence of reincarnation philosophy are the rapid rise of the New Age Movement and society s fascination with Eastern thought They examine cases of spontaneous past life recall and point out alternative explanations for these phenomena Ultimately The Reincarnation Sensation shows that the doctrine of reincarnation is contrary to the Bible s teaching about eternal life and incompatible with the Christian faith Karma and Rebirth in Classical Indian Traditions Wendy Doniger O'Flaherty,2024-07-26 Karma is perhaps the most famous concept in Indian philosophy but this is the first comprehensive study of its various meanings and philosophical implications Karma and Rebirth in Classical Indian Traditions offers a harmony of approach and an underlying set of methodological assumptions a corpus of definitions of karma a dialectic between abstract theory and historical explanation and an awareness of logical oppositions in theories of karma No solution to the paradox of karma is offered but the volume as a whole presents a consistent and encompassing approach to the many different often conflicting Indian statements of the problem Broad in scope and richly detailed this book demonstrates the impossibility of speaking of the theory of karma and supplies the basis for further study Exploring methodological issues arising in the study of a non
