

STEDI Program Test Questions With Correct Answers 100% Verified.

Behavior is largely a product of its immediate environment - answer✓✓The classroom environment that teachers create through the expectations they set will influence students more than outside factors do. This allows teachers to take control and influence the students' behavior in their classrooms. If a student is acting out, the teacher should make a special effort to alter the immediate environment in the classroom. If the teacher changes this environment in a positive way, the behavior of the students will change.

Behavior is strengthened or weakened by its consequences - answer✓✓When disruptive behavior becomes a pattern, it is important to take a look at what is happening immediately after the behavior. Attention from a teacher is a powerful motivator for most students. If you pay more attention to students who are behaving appropriately than to students who are not, you will be encouraging appropriate behavior.

Behavior ultimately responds better to positive than to negative consequences - answer✓✓People respond better to positive encouragement than to negative processes. Think of the tasks you do every day; if someone thanks you or compliments you on how well you did, you feel much more likely to continue the task. As a teacher, you can help stop undesirable behavior and increase appropriate behavior by genuinely reinforcing the latter.

Whether a behavior has been punished or reinforced is known only by the course of that behavior in the future. - answer✓✓If an appropriate behavior is repeated, it has been reinforced. If an undesirable behavior is repeated, it too has been reinforced. If an undesirable behavior has discontinued, it has been properly disciplined. The only way to tell if a response to a behavior is punishing or reinforcing is to watch what happens to the behavior in the future. What is considered a punishment to one person may reinforce and perpetuate a behavior in another.

Reevaluate Situation - answer✓✓One of the first steps you should take when a student or group of students is behaving inappropriately is to reevaluate the situation. If a group of students will not stop talking, step back and see if you can figure out why they are talking. Perhaps they do not understand the assignment and need more instruction from you, or you could even restructure the assignment to allow students to work in small groups.

Use Proximity - answer✓✓Proximity is an easy-to-use strategy for dealing with many inappropriate behaviors. If a student or group of students is off task or disrupting the class, move closer in incremental steps. As you move toward the problem, behavior will often change, and students will comply with expectations without you having to say a word.
