The Democracy That Never Was Gary Teeple, 2025-02-28 Liberal democracy is usually treated as an independent variable as possessing the absolutes of democratic rule Its variable forms changing principles and practice and conscious destruction by its own advocates in particular the United States however suggest that it is not what it appears to be This book argues that it is a dependent variable the political form required by the changing configurations of national capital and their countervailing forces The forms of liberal democracy have always shifted in concert with the mode of production as their premise The absolutes of liberal democracy the author contends have never been anything but the abstracted principles of the marketplace Their nature has now become especially visible for what they have been because the premise as national capital development has changed leaving liberal democracy as a form without its original content and its present content out of keeping with a national jurisdiction As a political form it persists but its role has been transformed from the regulation of national capital accumulation to the enforcer of the demands of global configurations of capital It is a role that its citizens implicitly understand as revealed in widespread political cynicism decreasing electoral participation and declining legitimacy that require ever greater measures of deceit from political leaders and increased means of coercive social control including militarized police forces and pervasive electronic surveillance There can be no going back to the stage of national politics because the neoliberal content of liberal democratic policies represents the necessities of global capital And it is the contradictions of global capital that define the character of early 21st century political conflict

Solving Public Problems Beth Simone Noveck, 2021-06-22 How to take advantage of technology data and the collective wisdom in our communities to design powerful solutions to contemporary problems The challenges societies face today from inequality to climate change to systemic racism cannot be solved with yesterday's toolkit Solving Public Problems shows how readers can take advantage of digital technology data and the collective wisdom of our communities to design and deliver powerful solutions to contemporary problems Offering a radical rethinking of the role of the public servant and the skills of the public workforce this book is about the vast gap between failing public institutions and the huge number of public entrepreneurs doing extraordinary things and how to close that gap Drawing on lessons learned from decades of advising global leaders and from original interviews and surveys of thousands of public problem solvers Beth Simone Noveck provides a practical guide for public servants community leaders students and activists to become more effective equitable and

inclusive leaders and repair our troubled twenty first century world **The Crisis** ,1942-07 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens **The Publishers' Trade List Annual** ,1917 *The Multinational Enterprise and Legal Control* Cynthia Day Wallace,2021-10-18 This long awaited new book from Cynthia Day Wallace picks up the thread of her best selling *Legal Control of the Multinational Enterprise National Regulatory Techniques and the Prospects for International Controls* In the present work she applies herself to legal and pragmatic aspects of control surrounding MNE operations The primary focus is on legal and administrative techniques and measures practised by host states to control transparently or less so foreign MNE activity within their territories or even extraterritorially when effects are felt within national boundaries The primary geographic focus is the six most investment intensive industrialized states namely Canada France Germany Japan the United States and the United Kingdom At the same time an important message of the present study is precisely the implication for the developing countries as well as for the emerging market economies of central and eastern Europe and even Asian nations besides Japan because it is the sharing of this very experience of years that can best serve to facilitate a fuller participation on the part of the up and coming economies in the same global market place
