Everett Langford,2004-02-19 Crucial information on nuclear chemical and biological weapons From the diseased animal carcass hurled over the wall of a besieged castle to the nuclear suitcase bomb carried by a clandestine operative the threat of unconventional weapons has always been a feature of warfare Today s danger comes mainly from the potential use of nuclear biological and chemical NBC weapons of mass destruction WMD by international terrorists or rogue states False alarms and misinformation about these weapons have abounded in the jittery post 9 11 atmosphere To understand and deal with the actual threat posed requires basing response plans policy and reporting on actual facts *Introduction to Weapons of Mass Destruction* separates fact from fiction about NBC weaponry by providing clear technically precise information For each family of weapon coverage in this handbook includes History and background information Agent types and delivery mechanisms Effects of exposure Protection Safe storage and handling Decontamination Medical treatments Drawing from a broad array of military scientific and safety resources this text offers both accessibility to the general public and accuracy and depth for professional emergency responders Additional resources include a bibliography of references and a list of addresses and telephone numbers of federal and military agencies and professional organizations of interest With full coverage of WMDs from high tech genetically modified organisms to rudimentary radiological dirty bombs *Introduction to Weapons of Mass Destruction* is an essential reference for understanding and responding to these dangerous warfare agents **Field Manual FM 4-02. 12 Army Health System Command and Control Organizations** United States Government US Army,Us Army,2012-09-02 This field manual FM establishes command and control C2 doctrine for the provision of Army Health System AHS support in echelons above brigade EAB It discusses all roles of care within the theater The AHS is the overarching concept of support for providing timely medical support to the tactical commander This publication is designed for use by medical commanders and their staffs that are
