Workshop Manual Utopia 205:

Books in Print Supplement ,1994 Churchill's Socialism Siân Adiseshiah,2020-06-12 Although now celebrated as a world leading playwright Caryl Churchill has received little attention for her socialism which has been frequently overlooked in favour of emphasising gendered identities and postmodernist themes Churchill's Socialism examines eight of Churchill's plays with reference to socialist theories and political movements This well researched and dynamic new book reframes Churchill's work positioning her plays within socialist discourses and producing persuasive political readings of her drama that reflect much more of the political challenge that the plays pose It additionally explores her uneasy relationship with postmodernism which presents itself particularly in Churchill's later plays The book contains a very helpful chapter on socialist contexts which outlines some of the key events debates and movements during the late 1960s up until the early 2000s This chapter also offers an incisive critique of the easy acceptance by some socialists of a postmodernist rejection of grand narratives and political agency An in depth examination of the rarely explored interconnections of utopianism and theatre forms another chapter where all eight of Churchill's plays Light Shining in Buckinghamshire Vinegar Tom Top Girls Fen Serious Money Mad Forest The Skriker and Far Away are introduced The plays are then discussed in pairs in a further four chapters with reference to communist historiography the class gender intersection the end of history thesis ecocritical challenges and postmodernism

Participatory Design Douglas Schuler,Aki Namioka,1993-03-01 The voices in this collection are primarily those of researchers and developers concerned with bringing knowledge of technological possibilities to bear on informed and effective system design Their efforts are distinguished from many previous writings on system development by their central and abiding reliance on direct and continuous interaction with those who are the ultimate arbiters of system adequacy namely those who will use the technology in their everyday lives and work A key issue throughout is the question of who does what to whom whose interests are at stake who initiates action and for what reason who defines the problem and who decides that there is one The papers presented follow in the footsteps of a small but growing international community of scholars and practitioners of participatory systems design Many of the original European perspectives are represented here as well as some new and distinctively American approaches The collection is characterized by a rich and diverse set of perspectives and experiences that despite their differences share a distinctive spirit and direction a more humane creative and effective relationship between those involved in technology's design and use and between technology and the human activities that motivate the technology

almost exclusively on the Vienna Convention on the Law of Treaties Such an approach neglects interpretation as a distinct and broader field of theoretical inquiry Interpretation in International Law brings international legal scholars together to engage in sustained reflection on the theme of interpretation The book is creatively structured around the metaphor of the game which captures and illuminates the constituent elements of an act of interpretation The object of the game of interpretation is to persuade the audience that one's interpretation of the law is correct The rules of play are known and complied with by the players even though much is left to their skills and strategies There is also a meta discourse about the game of interpretation playing the game of game playing which involves consideration of the nature of the game its underlying stakes and who gets to decide by what rules one should play Through a series of diverse contributions Interpretation in International Law reveals interpretation as an inescapable feature of all areas of international law It will be of interest and utility to all international lawyers whose work touches upon theoretical or practical aspects of interpretation
