Further, there is an enhanced focus on practical applications right throughout the book. Featuring contributions from leading experts in the field and fully revised and updated to reflect the latest research, Teaching Middle Years will assist both pre-service and in-service teachers to bring out the very best in their students.

Balance of Power in World History S. Kaufman, R. Little, W. Wohlforth, 2007-08-22 The balance of power is one of the most influential ideas in international relations yet it has never been comprehensively examined in pre-modern or non-European contexts. This book redresses this imbalance. The authors present eight new case studies of balancing and balancing failure in pre-modern and non-European international systems.

Wattles David M. Richardson, Johannes J. Le Roux, Elizabete Marchante, 2023-11-13 The book provides a comprehensive overview of current knowledge about wattles, a large clade of over 1000 species of trees and shrubs in the genus *Acacia*, most of which are native to Australia. It examines the biology, ecology, evolution and biogeography of wattles in their native ranges, including the evolutionary forces that have driven past speciation and adaptation to diverse environments, the conservation status, uses and human perceptions of these species. It considers the different histories of the introductions and proliferation of wattles as alien species in different parts of the world since c. 1850, the Anthropocene, situated within relevant political, socio-economic and scientific contexts, together with an analysis of how awareness of their impacts as invasive species has changed over time. Differences in the dynamics and trends associated with the introduction, naturalization and invasion of wattles in different parts of the world are reviewed. The book also synthesizes the global distribution of wattles using diverse data sources alongside trends, patterns and projections of global uses of wattles. It discusses the genetics, biotic interactions and ecological, economic and social impacts of invasive wattles. This book is aimed at academics and students in the field of ecology and at managers of natural and anthropic ecosystems, policy makers and regulators and the general public interested in biology and environmental science.

Hollywood or History? Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History The reviews of the first volume Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the Hollywood or History strategy
