Women's Bureau,1983 *Disability statistics report v. 6* ,1996 ,1991 **Life Behind a Veil** George C. Wright,2004-09-01 In the period between the Civil War and the Great Depression Louisville Kentucky was host to what George C Wright calls a polite form of racism There were no lynchings or race riots and to a great extent Louisville blacks escaped the harsh violence that was a fact of life for blacks in the Deep South Furthermore black Louisvillians consistently enjoyed and exercised an oft contested but never effectively retracted enfranchisement However their votes usually did not amount to any real political leverage and there were no radical improvements in civil rights during this period Instead there existed a delicate balance between relative privilege and enforced passivity A substantial paternalism carried over from antebellum days in Louisville and many leading white citizens lent support to a limited uplifting of blacks in society They helped blacks establish their own schools hospitals and other institutions But the dual purpose that such actions served providing assistance while making the maintenance of strict segregation easier was not incidental Whites salved their consequences without really threatening an established order And blacks obliged to be grateful for the assistance generally refrained from arguing for real social and political equality for fear of jeopardizing a partially improved situation and

regressing to a status similar to that of other southern blacks In *Life Behind a Veil Blacks in Louisville Kentucky 1865 1930* George Wright looks at the particulars of this form of racism He also looks at the ways in which blacks made the most of their less than ideal position focusing on the institutions that were central to their lives Blacks in Louisville boasted the first library for blacks in the United States as well as black owned banks hospitals churches settlement houses and social clubs These supported and reinforced a sense of community self esteem and pride that was often undermined by the white world *Life Behind a Veil* is a comprehensive account of race relations black response to white discrimination and the black community behind the walls of segregation in this border town The title echoes Blyden Jackson s recollection of his childhood in Louisville where blacks were always aware that there were two very distinct Louisvilles one of which they were excluded from
