Gaum ,Chris Jones,2021-08-12 At the beginning of 2017 the backlash cycle was in full swing in church denominations in South Africa as far as embracing sexual diversity was concerned In 2015 a momentous decision by the General Synod of the Dutch Reformed Church DRC embracing inclusivity in allowing LGBTIQA ministers to not be celibate and its ministers to officiate same sex marriages surprised friend and foe But this was reversed a year later in an Extraordinary General Synod of the church The disappointing outcome of the *De Lange v Methodist Church of Southern Africa* case had just been handed down by the Constitutional Court and the Anglican Church's stalling on fully affirming sexual diversity continued

Teacher Education for Transformative Agency Carina America,Nazeem Edwards,Maureen Robinson,2021-01-19 Many teacher education programs globally are undergoing significant changes in response to government policy imperatives driven by global competitiveness as well as local conditions This is particularly relevant in the South African context where teacher education seeks to navigate from the ravages of apartheid education towards addressing the developmental needs of the majority of its citizens This book records and explores efforts by academic staff members within the Faculty of Education at Stellenbosch University South Africa responding to the demands of a new program in initial teacher education It brings together diverse views seeking to present a coherent program in the Postgraduate Certificate in Education PGCE It examines

how curriculum design unfolds across disciplines in the program and crucially the commonalities in the presentation of course material. Lecturers examine the purpose, structure and content of their teaching as they engage with putting democratic policy goals into practice in the core as well as subject specific modules of the program. *Sustainable Stellenbosch* Mark Swilling, Ben Sebitosi, Ruenda Loots, 2012-11-01 Stellenbosch faces the same challenges that most South African urban areas face: rapid urbanisation, sluggish economic growth, growing inequalities, unsustainable use of natural resources, deteriorating biodiversity, social problems, unhealthy living, insecure supplies of healthy food, degrading soils, infrastructure backlogs and inadequate urban planning. At the same time Stellenbosch has tremendous potential. It brings together in one beautiful place extra-ordinary intellectual capacity, social diversity, financial resources, creative potential, high value eco systems, spiritual energy and some of South Africa's most vibrant grassroots social movements in its poorest areas. The brief given to the writers was to examine the current challenges and discuss what needs to change in the way we think about these challenges to ensure more positive and sustainable long term outcomes. This is therefore a contribution that aims to further open up and widen recent dialogues about the future that Stellenbosch deserves. Back cover

Distribution and Treatment of Infectious Diseases: Challenges for Developed and Developing Nations Hamdar, Hiba, 2025-07-16 In our interconnected world infectious diseases pose an ever increasing threat, transforming boundaries and affecting both developed and developing nations. While developed countries benefit from advanced healthcare systems, the rise of antibiotic resistant infections, an aging population and global travel challenges persist. Simultaneously, developing nations face a more significant burden due to limited healthcare infrastructure, poverty and the prevalence of tropical diseases. The lack of access to clean water, sanitation and vaccines further compounds the challenges, creating a complex tapestry of infectious disease dynamics. *Distribution and Treatment of Infectious Diseases: Challenges for Developed and Developing Nations* is a comprehensive book, a beacon of knowledge and a catalyst for change. It brings together esteemed scholars to form a collective of effort and knowledge sharing to unravel the intricacies of infectious diseases. By addressing topics ranging from the basics of infection to the specific challenges faced by developed and developing nations, the book offers a comprehensive understanding of the global situation. Beyond a mere analysis, this book presents actionable strategies and fosters international cooperation to combat the socio-economic factors, misinformation and barriers to effective treatment.
