Professional Journal of the United States Army, 1988

A People's History of the Cold War Colin Turbett, 2023-03-23 Between the closing battles of the Second World War and the collapse of the Soviet Union in 1991 the Cold War cast a shadow over the lives of people throughout the world while open conflict was avoided between the ideologically competing superpowers and their principal allies millions died in battlegrounds in parts of the world that were usually far from Moscow Washington and London The threat of nuclear annihilation was omnipresent but at the same time mutually assured destruction tempered conflict and focused minds Subtle and not so subtle attempts to influence popular opinion either way were apparent in everyday life on both sides of the divide while the power of the dollar and the burgeoning costs of the arms race eventually broke the Soviet economy the idea that capitalism won the the Cold War seems misplaced especially if one considers events that have happened since including very recent armed conflict The book takes the reader through main events of the period but focuses on the impact on ordinary citizens East and West and the view of events from their perspective This is a story of how economies on both sides were built around war preparations and the advance of destructive technologies that had no social benefits apart from the provision of employment Sources used are unusual in not fitting the western based narratives that pervade both academic histories and popular accounts However this book is not an apology for the more oppressive aspects of Soviet policy as the USSR struggled to build really existing

socialism within its own borders and the Eastern Bloc countries under its immediate influence. Instead, it brings a people's perspective from both sides onto this important period of recent history whose consequences are very much still with us as we face modern challenges around climate change and growing inequality across our world. *A People's History of the Cold War: Stories from East and West* captures the mood of the times with its extensive contemporary illustrations. *Red Army Weapons of the Second World War* Michael Green, 2023-10-05. While the Red Army's arsenal at the start of the Second World War included weapons dating back to the Great War or earlier, the 1930s modernization program had introduced the automatic Tokarev pistol and self-loading Tokarev rifle. Its small arms were soon replaced by mass-produced submachine guns such as the PPSH 1941, nicknamed the PePeSha. Supplementing the submachine guns, the Degtyarev Light Machine Gun DP 27, fitted with a circular pan magazine, received the not unsurprising nickname Record Player. New mortars and towed artillery pieces ranging from 76mm to 203mm entered service in the pre-war years. In addition to a wide range of towed self-propelled and anti-tank guns, the Soviets fielded the Katyusha rocket launchers in 1941, nicknamed the Stalin's organ, by the Germans. The 1930s saw the introduction of the BT light tank series. The iconic T-34 medium tank series came into service in late 1940, joined by the IS-2 heavy tank from early 1944; the prefix letters IS translates to Joseph Stalin. These formidable AFVs led the Red Army to victory in May 1945 over Nazi Germany. All these weapons and more are covered with numerous images in this authoritative overview of the subject. **The American Civil War on Film and TV** Douglas Brode, Cynthia J. Miller, Shea T. Brode, 2017-10-05. Whether on the big screen or small films featuring the American Civil War are among the most classic and controversial in motion picture history. From D.W. Griffith's *Birth of a Nation* (1915) to *Free State of Jones* (2016), the war has provided the setting, ideologies, and character archetypes for cinematic narratives of morality, race, gender, and nation, as well as serving as historical education for a century of Americans. In *The American Civil War on Film and TV: Blue and Gray in Black and White and Color*, Douglas Brode, Shea T. Brode, and Cynthia J. Miller bring together nineteen essays by a diverse array of scholars across the disciplines to explore these issues. The essays included here span a wide range of films from the silent era to the present day, including Buster Keaton's *The General* (1926), *Red Badge of Courage* (1951), *Glory* (1989), *Gettysburg* (1993), and *Cold Mountain* (2003), as well as television mini-series *The Blue and The Gray* (1982) and John Jakes' acclaimed *North and South* trilogy (1985-86). As an accessible volume dedicated to a critical conversation about the Civil War on film, *The American Civil War on Film and TV* will appeal to not only to scholars of film, military history, American history, and cultural history, but to fans of war films and period films as well.
