

About This Study Guide:

In May 2012, the Texas Education Agency released Performance Level Descriptors that outlined what students at each EOC Performance Level could do. This study guide provides background information to help you prepare to meet these levels. It is your goal to achieve a Level II (Satisfactory) or Level III (Advanced) Performance.

Access the Performance Level Descriptors at <http://www.tea.state.tx.us/studentassessment/taar/socstudies/>

About the EOC Test:

There are 5 categories on the World History test. The chart below shows how many questions you can expect for each category.

Category	Number of Questions
History 8000 BC to AD 1750	18
History 1750 to the Present	20
Geography and Culture	10
Government and Citizenship	10
Economics, Science, Technology, and Society	10

The EOC will also assess Social Studies Skills. You'll need to be able to

- Interpret maps, graphs, and charts to show the relationship between geography and history.
- Explain and use primary and secondary source documents, considering the frame of reference, historical context, and point of view.
- Analyze information by sequencing, categorizing, identifying cause-and-effect relationships, comparing, contrasting, finding the main idea, summarizing, making generalizations and predictions, drawing inferences and conclusions, and developing connections between historical events over time.
- Know and use social studies vocabulary.

How to Answer a Multiple Choice Question:

- Examine the question. Read the entire question. Study any pictures, charts, passages, or maps.
- Recall what you know about the topic. Feel free to jot notes on your test.
- Answer the question. Check all of the answer choices and eliminate any choices that are obviously wrong.

General Study Tips:

- Plan ahead. You don't want to try to cram everything in the day or the week before the exam.
- Pick the right time of day to study. Try not to wait until late at night when you are too tired to focus.
- Find a study partner or group.
- Read, reread, and write, and rewrite your notes!

The Psychometrics of Standard Setting Mark Reckase,2023-01-31 This book provides a unifying structure for the activities that fall under the process typically called standard setting on tests of proficiency Standard setting refers to the methodology used to identify performance standards on tests of proficiency The results from standard setting studies are critical for supporting the use of many types of tests The process is frequently applied to educational psychological licensure certification and other types of tests and examination systems The literature on procedures for standard setting is extensive but the methodology for standard setting has evolved in a haphazard way over many decades without a unifying theory to support the evaluation of the methods and the validation of inferences made from the standards This book provides a framework for going beyond

specific standard setting methods to gain an understanding of the goals for the methods and how to evaluate whether the goals have been achieved The unifying structure provided in this book considers policy that calls for the existence of performance standards the relationship of proficiency test design to the policy and tasks assigned to subject matter experts to help them convert the policy to estimates of locations on the reporting score scale for the test The book provides guidance on how to connect the psychometric aspects of the standard setting process to the intentions of policy makers as expressed in policy statements Furthermore the structure is used to support validity arguments for inferences made when using standards Examples are provided to show how the unifying structure can be used to evaluate and improve standard setting methodology

A Church for the World Samuel Yonas Deressa, Josh de Keijzer, 2020-08-20 A Church for the World The Church's Role in Fostering Democracy and Sustainable Development challenges theologians and lay readers alike to think about the role of the church vis vis its responsibility to the world How may the church contribute to democracy and foster sustainable development Contributors from mostly non Western theological communities offer historical developmental ecclesiastical and theological perspectives on the church world relationship challenging misconceptions and practices that prevent the church from living up to its transformational vocation as salt and light in the world Matt 5 13 16 The driving force behind the questions and perspectives discussed here is Gustavo Gutierrez's axiom in A Theology of Liberation A theology which fails to address the most urgent needs of ordinary people is not worthy of the word theology Proceeding from this insight this book creates awareness about the relationship between religion democracy and development and aims to strengthen the self understanding of the church with regard to its responsibilities in the world
