Facts and Explanations in International Studies...and beyond Patrick Thaddeus Jackson, 2024-09-09 The politicizing of facts and factual claims has led some to abandon all talk of a meaningful distinction between a fact and a strongly held political commitment. This book argues that what we need instead are better accounts of facts and their relationship to explanation, ones that take seriously the dependence of facts on communities of practice and on consensus procedures of measurement but do not abandon the epistemic distinctiveness of facts. Bringing clarity and order to the discussion by disclosing both key commonalities and significant differences between the ways we talk about facts and explanations, Patrick Thaddeus Jackson argues that although intrinsically more contestable than facts, social scientific explanations can nonetheless be related to them in ways that allow researchers to evaluate explanations based on whether and to what extent they accord with the relevant facts in each situation. Ardent defender of a pragmatist account of knowledge that has no patience with either alternative facts or anything goes relativism, the author develops a set of concepts that enables tricky philosophical problems to be dissolved. After examining facts, causal explanations and interpretive explanations, the book culminates in an account of the priority of interpretation in the evaluation of any explanation and any seemingly factual claim. Defining the terms of the debate and grounding better conversations about the issues, this book will appeal to all scholars interested in the philosophy and methodology of the social sciences, international studies, international relations, security studies and anyone teaching or studying research methods.

the ways that racial policy worked and was understood and consider race's function, content and power in relation to society and nation and above all in relation to the extraordinary violence unleashed by the Nazis

Beyond Expectations Frank Forsberg, 2011-10 Like a flower or maybe a tenacious weed Frank Forsberg managed to thrive in the arid soil of the Great Depression. Not that it was easy. Surely traveling in a boxcar with hobos couldn't have given sixteen-year-old Forsberg reason to expect much of the future. But not only would he retire a Navy captain, he'd find love, friendship and adventure along the way. After a slight detour through the school system, Forsberg found his way to the Navy where he received an unexpected lifelong education. His Navy career spanned three wars and saw America go through profound changes from the unanimous support of World War II to the divisiveness of the Korean War and the Vietnam War. As a pilot, Forsberg faced challenges that would test his skills and resolve which ultimately strengthened his character. He also accepted what may be the even more harrowing mission of starting a family, something no amount of training could have prepared him for. The kid that set out across the country with just over a dollar couldn't have known it at the time, but he was embarking on the American dream. *Beyond Expectations* is an exciting chronicle of that adventure, a saga of facing seemingly impossible situations and living to laugh about it. It's been a wild ride so far. And that's just the first 90 years.
