

## Ch. 12 Study Guide: Milestones, 1900-1950

### Objectives

#### **World War I (1914-1918)**

**1. Explain the causes of WWI.**

- a. WWI had a few main causes, but the inciting event was the assassination of Archduke Franz Ferdinand. Due to the successor of the throne's assassination the Balkan region was thrown into conflict. Due to this larger allies including Germany, France, and Russia began to get involved in the war. Eventually the triple alliance of the French, Russians, and the British were able to beat Germany and place large restrictions on the German economy which eventually led to the rise of Hitler. This was escalated largely due to the new military powers which were looking to prove their strength on a global stage.

*\*Include both long-term (MAIN: militarism, alliances, imperialism, nationalism) and short-term (Balkan conflict: assassination of Archduke Franz Ferdinand).*

**2. Describe the new military technologies and tactics used to conduct war.**

- a. The new military technologies and tactics made this war incredibly destructive with over 10 million deaths. Some new techniques in warfare included chemicals, heavy artillery, machine guns, tanks, planes, armored cars, and advanced guns.

**3. Explain the concept of total war, and provide examples of how governments in WWI mobilized populations for the purpose of waging war.**

- a. WWI brought the idea of total war in which governments mobilize all parts of their militaries in war. This caused more death and destruction as more people and more resources were thrown into the war with the hope of victory.

**4. Explain the consequences of WWI. Examining these consequences, consider the ways in which WWI led to change (vs. continuity).**

- a. WWI had 2 massive consequences:

- i. WWI led to the Great Depression which was an international trend of collapsing stock markets, weak economies, and very few jobs. The Great Depression itself was an important event as it led to the rise of fascism and communism due to the harsh economic environment it created.

*\*Include: philosophical/psychological impact (disillusionment, questioning of Enlightenment values, social mobility; impact on women (suffrage, more social freedoms); new consumerism and pop culture; the Treaty of Versailles (1919) and its impact; territorial changes (in Europe, the Middle East, Africa, East Asia) and their political impact (be sure to note the Armenian genocide, which is an example of a 20th c. mass atrocity, like the Holocaust which came later); impact on African and Asian colonies (setting the stage for independence movements); rise of the US as a global power.*

#### **Great Depression (1929-1939)**

**1. Explain the causes of the Great Depression.**

- a. The Great Depression had a few main causes which all originated from one event which was WWI. Due to the devastation of Eastern Europe in WWI lots of farmland was destroyed. The absence of food from these farms caused the rise in value of US farms causing the economy to boom and for people to invest all of their newly earned money. Eventually the

*distance relay protection in ac microgrid matlab simulink* - Jul 15 2023

web distance relay protection in ac microgrid this example shows how to model a distance relay in an ac microgrid the relay block comprises impedance relay characteristic and mho relay characteristic you can use this example to study the performance of impedance relay and mho relay in various fault conditions

[simulation of relay protection in simulink faultan ru](#) - Jun 02 2022

web the matlab simulink software package allows you to simulate not only electrical networks but also much more including relay protection and automation algorithms to implement relay protection algorithms simulink has a large number of libraries that allow you to simulate various relays time delays filters triggers and so on if any

[matlab simulink based simulation for digital differential relay](#) - Jan 09 2023

web this article presents a matlab simulink based technology to simulate differential relay for determining behavior of it during transformer internal fault protection the results show that this simulation method can work properly and this design can be used for power system simulation in matlab simulink

*fault analysis using overcurrent relay protection in matlab simulink* - Aug 04 2022

web sep 21 2021 23k views 1 year ago matlab simulink tutorials for electrical and electronic engineering matlab simulink overcurrent relay protection simulation in power system link for overcurrent relay

[simscape electrical matlab mathworks](#) - Sep 05 2022

web simscape electrical formerly simpowersystems and simelectronics provides component libraries for modeling and

simulating electronic mechatronic and electrical power systems it includes models of semiconductors motors and components for applications such as electromechanical actuation smart grids and renewable energy

*modeling and simulation of power system protection relays in a* - Dec 08 2022

web may 23 2021 the project focuses on protection system practices which are relevant to transmission level applications various implementations of differential phase distance and ground distance relays were investigated and ultimately modeled in the

*pdf protection transformer and transmission line in* - Jul 03 2022

web apr 12 2022 this paper represents the differential protection relay that used to protect the prototype terco power transformer matlab simulink is used to simulate the protection system

modeling and simulation of differential protection relay based on - Mar 31 2022

web aug 1 2018 the siemens 7ut6 differential protection relay is used for power transformer differential protection and is capable of protecting transformers of any vector group this paper covers the

**simpowersystems user s guide matlab for engineers** - Oct 06 2022

web what is simpowersystems starting with mathworks release 13 the power system blockset has been renamed to simpowersystems as a part of the physical modeling family simpowersystems and simmechanics work together with simulink to model electrical mechanical and control systems electrical power systems are combinations

model based design for power systems protection relays using matlab - Dec 28 2021

web apr 17 2008 this paper describes modelling and testing of a digital distance relay for transmission line protection using matlab simulink

**model based design for power systems protection relays using matlab** - Nov 07 2022

web mar 20 2008 in the world of power system relays there have been significant changes in the technology used to implement the protection electro mechanical relays static r model based design for power systems protection relays using matlab simulink iet conference publication ieee xplora

*does any know if there is a power protection relay matlab simulink* - Mar 11 2023

web aug 7 2022 does any know if there is a power protection relay library for simulink and simpower i came by a technical paper m kezunovic and b kasztenny texas uni indicating that there was a relay element library however my tool box has nothing in the way of complete over current differential distance relays

model of a digital relay file exchange matlab central - Apr 12 2023

web jul 17 2021 a digital relay is a computer based system with software based protection algorithms for the detection of electrical faults this model simulates the working of a digital relay with the help of matlab simulink

simulation of reverse power relay for generator protection - May 13 2023

web apr 2 2013 this paper presents the modeling and simulation of digital reverse power relay on matlab simulink in this simulation the relay performance is tested on 11kv synchronous generator connected with 220kv through a step up transformer

is there a relay or and contactor blocks within matlab simulink - Feb 27 2022

web jun 27 2009 a built in block that models an electromagnetic relay is not available in simpowersystems 5 0 r2008b however there is a demo model under the Simscape 3 0 r2008b product that could be used as a reference model for building a relay

distance protection relay file exchange matlab central - May 01 2022

web jun 3 2022 the distance protection method is widely used for power system transmission line protection distance relays are one of the main protection devices in a transmission line distance protection relay approximates the impedance down the line to a fault using currents and voltage measurement units

implement protection relay with definite minimum time dmt trip - Aug 16 2023

web the protection relay block implements a protection relay for the hardware and the motor with definite minimum time dmt trip characteristics using the reference limit feedback and reset input signals in the event of a fault the block generates a latched fault signal that you can use to protect the hardware and the motor

power system relay protection simulation based on matlab - Jan 29 2022

web matlab based simulation technology can support the analysis and design of relay protection systems a simulation model is built for the study of power system relay protection as an example the power system fault simulation zero sequence current protection simulation and transformer differential protection simulation are

protection relay software models in interaction with power system - Jun 14 2023

web may 25 2012 protection relay software models in interaction with power system simulators abstract modelling and simulation software developed for analysing protective relaying applications and relay design concepts in power distribution is

design modeling and implementation of multi function protective relay - Feb 10 2023

web jun 17 2020 in this paper a digital multi function protective relay was designed and implemented on matlab simulink in this study we also explore some current techniques ranging from the use of digital logic algorithms to system protection applications
