Lennox, Joseph McRae Mellichamp, 2024-09-19 Then King Darius sent this message to the people of every race and nation and language throughout the world I decree that everyone throughout my kingdom should tremble with fear before the God of Daniel For he is the living God and he will endure forever Daniel 6 25 6 The book of Daniel tells the story of four teenage friends born in the tiny state of Judah about twenty six centuries ago who were captured by Nebuchadnezzar emperor of Babylon Although forced to live in exile Daniel and his friends remained faithful to the one true God But they did not simply treat their devotion to God as a private matter they maintained a high profile witness in a pluralistic society that was highly antagonistic to their faith That is why their story has such a powerful message for us What was it that gave that ancient foursome Daniel and his three friends the strength and conviction to be prepared often at great risk to swim against the flow This study guide to Against the Flow is packed with thought provoking suggestions for private reflection or group discussion drawing out the many ways in which the story of Daniel can teach us how to live faithfully in a world of religious doubt and scepticism today *Student*

Study Guide to The Asian World, 600-1500 Roger Des Forges, John Major, 2005-10 The Christian doctrine of heaven has been a moral source of enormous power in western culture It has provided a striking account of the ultimate good in life and has for two millennia animated the hope that our lives can be fully meaningful Recently however the doctrine of heaven has lost much of its grip on the western imagination and has become a vague and largely ignored part of the Christian creed Not only have our hopes been redefined as a result but our very identity as human beings has been altered In this book Jerry L Walls argues that the doctrine of heaven is ripe for serious reconsideration He contends not only that the orthodox view of heaven can be defended from objections commonly raised against it but also that heaven is a powerful resource for addressing persistent philosophical problems not the least of which concern the ground of morality and the meaning of life Walls shows how heaven is integrally related to central Christian doctrines particularly those concerning salvation and tackles the difficult problem of why faith in Christ is necessary to save us from our sins In addition heaven is shown to illumine thorny problems of personal identity and to be an essential component of a satisfactory theodicy Walls goes on to examine data from near death experiences from the standpoint of some important recent work in epistemology and argues that they offer positive evidence for heaven He concludes that we profoundly need to recover the hope of heaven in order to recover our very humanity

Interdisciplinarity in World History Ahmed Abushouk,Mahjoob Zweiri,2016-06-22 This book represents selected papers of an international conference convened by the Department of Humanities at Qatar University Doha in March 2013 Its theme was Interdisciplinarity in History An Old Method in New World Context Twelve out of the fifty papers presented at the conference have been thoroughly reviewed revised and compiled in this volume Their contributions emphasize that interdisciplinary in history has become a key term for professional historians who reject the professional identity of history based on its claimed autonomy and the distinctiveness

of its research methods and argue that this claim has seriously narrowed the intellectual horizons of the discipline in terms of both teaching and research. The chapters also stress that historical research should not be confined to political events as it was by ancient historians but rather be open to other complex issues which require thorough investigation and collaboration between history and other disciplines. In this sense, interdisciplinarity in history is a process of answering questions, solving problems, or examining topics that are too broad or multifaceted to be tackled adequately by history as a discipline on its own. Therefore, history should not be regarded as a stationary subject as Robinson wrote but as a discipline that would transcend the limitations formerly imposed upon the study of the past and integrate with other social science disciplines to widen its methodological scope and investigate many issues that had previously ignored or marginalized.
