Mbiti,1991      *Introduction to the Study of the Bible ... Second Edition* Joseph Baylee,1870      An Introduction to Coping with Post-Traumatic Stress, 2nd Edition Ann Wetmore,2019-05-09

Traumatic stress arises in reaction to catastrophic life events. Such events can range from train disasters and car crashes to natural calamities such as earthquakes, wildfires, and floods, and from life-threatening medical diagnoses to acts of violence and abuse. Post-Traumatic Stress Disorder (PTSD) is a common psychological condition resulting from such events and occurs when our coping resources have been completely overwhelmed. The intrusive hyper-reactions, recurring memories, flashbacks, avoidance behaviours, and changes in the sense of self linger long past the actual event and often prevent a sense of healing or resolution with the experience. This self-help guide uses Cognitive Behavioural Therapy (CBT) strategies with a trauma focus to help you to manage your reactions to the traumatic experience and find new effective ways of coping. You will learn to understand your reactions to traumatic events, practical strategies for monitoring, managing, and overcoming post-traumatic stress, innovative therapeutic options, and new mobile device supports.
