Organizations at War in Afghanistan and Beyond Abdulkader H. Sinno, 2008 While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology social scientific analyses of these wars focus on aggregate categories such as ethnic groups religious affiliations socioeconomic classes or civilizations Challenging these constructions Abdulkader H Sinno closely examines the fortunes of the various factions in Afghanistan including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion Focusing on the organization of the combatants Sinno offers a new understanding of the course and outcome of such conflicts Employing a wide range of sources including his own fieldwork in Afghanistan and statistical data on conflicts across the region Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization Each organization's ability to mobilize effectively execute strategy coordinate efforts manage disunity and process information depends on how well its structure matches its ability to keep its rivals at bay Centralized organizations Sinno finds are generally more effective than noncentralized ones but noncentralized ones are more resilient absent a safe haven Sinno's organizational theory explains otherwise puzzling

behavior found in group conflicts the longevity of unpopular regimes the demise of popular movements and efforts of those who share a common cause to undermine their ideological or ethnic kin The author argues that the organizational theory applies not only to Afghanistan where he doubts the effectiveness of American state building efforts but also to other ethnic revolutionary independence and secessionist conflicts in North Africa the Middle East and beyond Beyond Caligari Uli Jung,Walter Schatzberg,1999 Documents the work of the often neglected director of the German silent film classic The Cabinet of Dr Caligari The chapters move chronologically through the different periods of Wiene s career summarizing and critiquing 90 films he either directed or wrote Originally published in German the book includes black and white photographs and a filmography Annotation copyrighted by Book News Inc Portland OR **U.S. Constitution, Grades 5 - 8**

Authenticating Criteria in Jesus Research and Beyond Kevin B. Burr,2023-10-16 Are the criteria of authenticity of Jesus research idiosyncratic to New Testament studies vehicles of subjectivity and fundamentally flawed vestiges of form criticism as some claim today If so why do opponents of the criteria approach still use them Or are the criteria the tools of general historiography as others assert If true none have adequately demonstrated where and how principles such as multiple

attestation general and historical coherence dissimilarity and embarrassment feature in general historiographic method until now This study analyzes the methods of general historians and Jesus researchers who favor or oppose the criteria and demonstrates that regardless of sub discipline authenticating criteria are inherent to the practice of historiography

Summoning the Powers Beyond Jay Dobbin, Francis X. Hezel, 2011-09-30 Summoning the Powers Beyond collects and reconstructs the old religions of preindustrial Micronesia It draws mostly from written sources from the turn of the nineteenth century and the period immediately after World War II reports of the Hamburg South Sea Expedition of 1908 1910 articles by German Roman Catholic missionaries in Micronesia included in the journal Anthropos and reports by the Coordinated Investigation of Micronesian Anthropology CIMA and the American Board of Commissioners of the Foreign Missions ABCFM A detailed introduction and an overview of Micronesian religion are followed by separate chapters detailing religion in the Chuukic speaking islands Pohnpei Kosrae the Marshall Islands Yap Palau Kiribati and Nauru The Chamorro speaking group of the Marianas is omitted because lengthy periods of intense military and missionary activity eradicated most of the local religion The Polynesian outliers Nukuoro and Kapingamarangi are discussed at the end primarily to underscore the contrasts between Polynesian and Micronesian religion In a concluding chapter the author highlights the similarities and differences between the areas within Micronesia and then attempts an appreciation or evaluation of Micronesia religion Finally he addresses the evidence of a tentative hypothesis that Micronesian religion is sufficiently different from that of Polynesia and Melanesia to justify the continued claim of a separate Micronesian religion
