Questions were chosen from the different areas of Electrocardiograph Technician study program ranging from the anatomy and physiology of the heart to the physical properties of an EKG strips to ensure comprehensive review for any of the national certification exams.

Formative Assessment, Learning Data Analytics and Gamification Santi Caballé, Robert Clarisó, 2016-05-10. Formative Assessment Learning Data Analytics and Gamification. An ICT Education discusses the challenges associated with assessing student progress given the explosion of e learning environments such as MOOCs and online courses that incorporate activities such as design and modeling. This book shows educators how to effectively garner intelligent data from online educational environments that combine assessment and gamification. This data when used effectively can have a positive impact on learning environments and be used for building learner profiles, community building and as a tactic to create a collaborative team. Using numerous illustrative examples and theoretical and practical results, leading international experts discuss application of automatic techniques for e assessment of learning activities, methods to collect, analyze and correctly visualize learning data in educational environments, applications, benefits and challenges of using gamification techniques in academic contexts and solutions and strategies for increasing student participation and performance. Discusses application of automatic techniques for e assessment of learning activities. Presents strategies to provide immediate and useful feedback on students activities. Provides methods to collect, analyze and correctly visualize learning data in educational environments. Explains the applications, benefits and challenges of using gamification techniques in academic contexts. Offers solutions to increase students participation and performance while lowering drop out rates and retention levels.

Emergency Medicine Board Review for the Visual Learner Joseph J. Violaris, Cristina M. Zeretzke-Bien, Tricia B. Swan, Lars K. Beattie, Brandon R. Allen, David Crabb, Dikea Roussos-Ross, 2021-03-12. This state of the art book provides a concise and up to date review of key emergency medicine topics in a predominantly visual format along with extensive practice questions to assist in preparing for the emergency medicine board exams. It is comprised of numerous illustrations created by Dr. Joseph Violaris which are specifically tailored toward the visual learner studying and preparing for board exams in emergency medicine. The book is organized by organ system with chapters on ophthalmology, cardiology, pulmonology, gastroenterology, nephrology, orthopedics, immunology and more. Special chapters that conclude the book are dedicated to trauma, pediatrics, toxicology, environmental disorders and epidemiology. Each chapter contains a visual learning guide followed by board practice questions at the end to reinforce topics addressed in the illustrations. Emergency Medicine

Board Review for the Visual Learner is an essential guide for medical students residents and fellows in emergency and internal medicine studying for board exams as well as EM physicians and related professionals preparing for recertification
