existing research on the social construction of risk and his own academic research Terry Gibson demonstrates the transformative potential of current debates around de and re growth for disaster studies Some disasters are highly visible to us all such as the Covid 19 pandemic or the climate emergency Many more are hidden everyday disasters grinding down the lives of the poor and vulnerable Very few of these disasters just happen Most are caused by those who create risk faster than they can mop it up by those who pursue reckless unmanaged economic growth that demands ever increasing manufacture consumption building food production and energy consumption These are the disaster makers In this book Gibson provides a thorough sophisticated yet accessible account of who the disaster makers are what they do and how we can do things better Ultimately Gibson demonstrates the urgency of replacing growth based economics with a fundamentally different social and economic model This is more than a dream As Gibson shows it becomes a practical possibility the moment enough of us commit to building a movement **SCM Studyguide: Philosophy and the Christian Faith** Ben Pugh ,2018-12-04 The

challenges that Western culture keeps posing to the Christian faith are ever new The goal posts keep changing This study guide will equip theology students to understand the culture shaping beliefs that are driving the kinds of questions it brings

to faith It will be an historical overview of the key stages in the history of Western philosophy with each section carefully tracing the genealogical line of ideas and the Christian responses to them right up to the present day For most theology students learning abstract philosophical concepts involves literally learning a new language a language that the initiated converse in with ease but which leaves the uninitiated baffled Thus each chapter in this study guide opens with a glossary of terms Throughout the studyguide students are encouraged to reflect on the ways in which what has been learned might be applied in both explicitly theological and wider cultural contexts for example they might be asked to think of a film or book that seems to express elements of existentialism or postmodernism or to describe how something very like the extreme subjectivity of idealism can sometimes shows itself in Sunday morning worship
