Duncan,2000 Duncan UCLA uses statistical data from primary sources to challenge the common scholarly view that Korea s Choson dynasty 1392 1910 was established by a new socioeconomic class of scholar officials who overthrew the capital based aristocracy of the Koryo dynasty Instead Duncan shows that continuity in the structure and composition of the central ruling class was a key feature of the transition He argues that the main force behind the shift was not revolution but the need to revamp institutions to protect the interests of the aristocracy With 26 tables and 10 genealogical charts as well as a lengthy glossary of Korean Chinese and Japanese place names descent groups and general terms Annotation copyrighted by Book News Inc Portland OR

**Guide to the study and use of reference books** Alice Bertha Kroeger,1917 **Korean Studies Today** Sŏul Taehakkyo. Tonga Munhwa Yŏn'guso,1970 **A New Middle Kingdom** J. P. Park,2018-10-09 Historians have claimed that when social stability returned to Korea after devastating invasions by the Japanese and Manchus around the turn of the seventeenth century the late Chosŏn dynasty was a period of unprecedented economic and cultural renaissance in which prosperity manifested itself in new programs and styles of visual art **A New Middle Kingdom** questions this belief claiming instead that true view landscape and genre paintings were likely adopted to propagandize social harmony under Chosŏn rule and to justify the status wealth and land grabs of the ruling class This book also documents the popularity of art books from China and their misunderstanding by Koreans and most controversially Korean enthusiasm for artistic programs from Edo Japan thus challenging academic stereotypes and nationalistic tendencies in the scholarship about the Chosŏn period As the first truly interdisciplinary study of Korean art **A New Middle Kingdom** points to realities of late Chosŏn society that its visual art seemed to hide and deny **A William Sangki and Nanhee Min Hahn Book** **Marginality and Subversion in Korea** Sun Joo Kim,2013-11-01 In the history of Korea the nineteenth century is often considered an age of popular rebellions Scholarly approaches have typically pointed to these rebellions as evidence of the progressive direction of the period often using the theory of class struggle as an analytical framework In **Marginality and Subversion in Korea** Sun Joo Kim argues that a close reading of the actors and circumstances involved in one of the century's major rebellions the Hong Kyongnae Rebellion of 1812 leads instead to more complex conclusions Drawing from primary sources in Korean Japanese and classical Chinese this book is the most extensive study in the English language of any of the major nineteenth century rebellions in Korea Whereas previous research has focused on economic and landlord tenant tensions suggesting that class animosity was the dominant feature in the political behavior of peasants Sun Joo Kim explores the role of embittered local elites in providing vital support in the early stages to spur social change that would benefit these elites as much as the peasant class Later however many of these same elites would rally to the side of the state providing military and material contributions to help put down the rebellion Kim explains why these opportunistic elites became discontented with the state in the scramble for power prestige and scarce resources and why many ultimately worked to rescue and reinforce the Chosŏn dynasty and the Confucian ideology that would prevail for another one hundred years This sophisticated groundbreaking study will be essential reading for historians and scholars of Korean studies as well as those interested in early modern East Asia social transformation rebellions and revolutions
