Integration of NGS in clinical and public health microbiology workflows: applications, compliance, quality considerations Varvara K. Kozyreva, Shanxin (Shaun) Yang, Ruth Evangeline Timme, Peera Hemarajata, Heather A. Carleton, 2024-02-05 The expansion of NGS implementation in clinical and public health practice accelerated drastically during the SARS CoV 2 pandemic where NGS has been playing a vital role in tracking dangerous strains of the virus NGS applications not only influenced public health decision making but also have been crossing into the clinical field with individual patients results being potentially available to the physicians Hence the topic of implementation of NGS methods in clinical and public health microbiology its challenges and special considerations is as timely as ever The use of Next Generation Sequencing NGS in clinical and public health microbiology laboratories has been steadily expanding in the past decade However this progress has been held back by multiple logistical challenges like the absence of regulatory compliance framework lack of clear quality guidelines the need for standardization and interoperability between laboratories as well as cost and turn around time limitations
