

Note: This study guide emphasizes topics and concepts from the content modules (eBook and youtube videos outlined in each sessions module roadmap). About 15%-20% of the test will involve concepts explored and demonstrated as part of the hands-on workshops & challenges. You will NOT need to code or perform tasks in Excel, but there are questions about concepts from the Excel activities. The best way to study for those topics is to pay attention to what you are doing in Excel (or other tools used as part of the workshops & challenges). Don't simply do tasks by rote but seek to understand what is happening and why.
