Notable American Women with Czechoslovak Roots Miloslav Rechcigl Jr.,2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role

Something Wiki Suzanne Sutherland,2014-12-19 2016 Young Author s Award Shortlisted CCBC s Best Books for Kids Teens Fall 2015 Commended Instead of writing in a diary twelve year old Jo Waller secretly edits Wikipedia entries to cope with the worst year of her life Jo Waller has three brainy friends two mostly harmless parents and one deep dark secret she edits Wikipedia for fun But when her twenty four year old brother moves back home with his pregnant girlfriend Jo is forced to reconcile the idealized version of her absent cool older brother with the reality of romantic relationships and the truth behind so many embarrassing health class videos With the young couple moving back into the family home there s barely enough room for anyone to move let alone have any privacy Throw in some major friendship turbulence a seriously unrequited crush and a mortifyingly bad haircut and it s looking like Jo will be lucky to make it out of the year alive When you re a pizza faced dork who uses Wikipedia as a diary and would rather wear ancient hand me downs than shop at the mall what s the upside Jo is about to find it in the most unlikely way Stories From My Career Lynne Gross,2014-02-20 Stories From My Career is a compilation of 50 illustrated stories about the author s career as a college professor and media practitioner Her career began in the 1960s when very few women were employed in either area and spanned six decades until her retirement The initial stories take place in Pittsburgh where she grew up and Chicago where she went to college but most of the stories are centered in the Los Angeles area A fair number also take place in other countries where she taught and consulted The stories encompass topics such as combining career and family the evolution of electronic technology the civil rights movement maternity leave practices television production techniques the Academy of Television Arts Sciences beginnings of cable TV teaching challenges media functions in developing nations and career advice The Britannias Alice Albinia,2024-02-27 Longlisted for the Ondaatje Prize and the Women s Prize for Non Fiction Shortlisted for the Stanford Travel Writing Award A dazzlingly brilliant book Hannah Dawson editor of The Penguin Book of Feminist Writing A revelatory portrait of Britain through its islands The Britannias weaves history myth and travelogue to rewrite the story of this island

nation From Neolithic Orkney Viking Shetland and Druidical Anglesey to the joys and strangeness of modern Thanet The Britannias explores the farthest reaches of Britain's island topography once known by the collective term Britanniae the Britains This expansive journey demonstrates how the smaller islands have wielded disproportionate influence on the mainland becoming the fertile ground of political cultural and technological innovations that shaped history throughout the archipelago In an act of feminist inquiry personal adventure and literary quest Alice Albinia embarks on a series of journeys that traverse Britain and reach beyond its contemporary borders from Europe to the Caribbean Ireland to Scandinavia She walks the coastlines of Lindisfarne sails through the Hebrides archipelago and bikes into Westminster at dawn As she takes us across extravagantly varied island topographies and surveys centuries of history Albinia ranges between languages and genres and through disparate island cultures She talks to stubbornly independent islanders and searches for archaeological and linguistic traces of island identities discovering distinct traditions and resistance to mainland control Trespassing into the past to understand the present The Britannias uncovers an enduring and subversive mythology of islands ruled by women Albinia finds female independence woven through Roman colonial reports and Welsh medieval poetry Restoration utopias and island folk songs These neglected epics offer fierce feminist countercurrents to mainstream narratives of British identity and shed new light on women's status in the body politic today Vivid perceptive and disruptive The Britannias boldly upturns established truths about Britain while revealing its suppressed and forgotten beauty

Notable Americans of Czechoslovak Ancestry in Arts and Letters and in Education Miloslav Rechcigl Jr., 2021-11-02 As pointed out in my last two publications no comprehensive study has been undertaken about the American Learned Men and Women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them Whereas in the two mentioned monographs the emphasis has been on scholars and social and natural scientists and men and women in medicine applied sciences and engineering respectively the present compendium deals with notable Americans of Czechoslovak ancestry in arts and letters and in education With respect to women although most professional fields were closed to them through much of the nineteenth century the area of arts and letters was opened to them as noted earlier and as this compendium authenticates

CRAZY STORIES FROM A CRAZY BRAIN Hannah Lee Mahaffey, 2012-01-13 An interesting collection of original short stories that will blow your mind

Three German Women Erika Esau, 2021-05-11 This book presents the life stories of three women of the German speaking realm whose lives inspired the author directly mathematician Maria Weber Steinberg 1919 2013 journalist Irmgard Rexroth Kern 1907 1983 and Viennese art historian Fr Dr Anna von Spitzmüller 1903 2001 The lives of these three women serve as emotional mirrors to the cultural transformations and tumultuous history of the 20th century Their stories tell of the hardships struggles and victories of intellectual European women in this era Each woman was related to men who played a prominent role in European cultural life men who received

some recognition in history books As intellectual professionals these women in contrast received very few public accolades for their important achievements Placing them in the cultural context of the times in Germany and Austria the book highlights the traumatic choices imposed on ordinary people by political and social circumstances over which they had no control Along with the women s individual stories the chapters focus on overarching themes including educated women s roles in European society narratives of perseverance in confronting Nazism and specific historical background describing the incidents affecting their life trajectories

Forensic Analytics Mark J. Nigrini, 2020-04-10 Become the forensic analytics expert in your organization using effective and efficient data analysis tests to find anomalies biases and potential fraud the updated new edition *Forensic Analytics* reviews the methods and techniques that forensic accountants can use to detect intentional and unintentional errors fraud and biases This updated second edition shows accountants and auditors how analyzing their corporate or public sector data can highlight transactions balances or subsets of transactions or balances in need of attention These tests are made up of a set of initial high-level overview tests followed by a series of more focused tests These focused tests use a variety of quantitative methods including Benford's Law outlier detection the detection of duplicates a comparison to benchmarks time series methods risk scoring and sometimes simply statistical logic The tests in the new edition include the newly developed vector variation score that quantifies the change in an array of data from one period to the next The goals of the tests are to either produce a small sample of suspicious transactions a small set of transaction groups or a risk score related to individual transactions or a group of items The new edition includes over two hundred figures Each chapter where applicable includes one or more cases showing how the tests under discussion could have detected the fraud or anomalies The new edition also includes two chapters each describing multi-million dollar fraud schemes and the insights that can be learned from those examples These interesting real

world examples help to make the text accessible and understandable for accounting professionals and accounting students without rigorous backgrounds in mathematics and statistics Emphasizing practical applications the new edition shows how to use either Excel or Access to run these analytics tests The book also has some coverage on using Minitab IDEA R and Tableau to run forensic focused tests The use of SAS and Power BI rounds out the software coverage The software screenshots use the latest versions of the software available at the time of writing This authoritative book Describes the use of statistically based techniques including Benford's Law descriptive statistics and the vector variation score to detect errors and anomalies Shows how to run most of the tests in Access and Excel and other data analysis software packages for a small sample of the tests Applies the tests under review in each chapter to the same purchasing card data from a government entity Includes interesting cases studies throughout that are linked to the tests being reviewed Includes two comprehensive case studies where data analytics could have detected the frauds before they reached multi million dollar levels Includes a continually updated companion website with the data sets used in the chapters the queries used in the chapters extra coverage of some topics or cases end of chapter questions and end of chapter cases Written by a prominent educator and researcher in forensic accounting and auditing the new edition of **Forensic Analytics Methods and Techniques for Forensic Accounting Investigations** is an essential resource for forensic accountants auditors comptrollers fraud investigators and graduate students

American Men and Women in Medicine, Applied Sciences and Engineering with Roots in Czechoslovakia Miloslav Rechcigl Jr., 2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on men and women in medicine applied sciences and engineering It covers immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them This compendium clearly demonstrates the Czech and Slovak immigrants including Bohemian Jews have brought to the New World in these areas their talents their ingenuity the technical skills their scientific knowhow as well as their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for their remarkable success and achievements of these settlers in the New World transcending through their descendants as this publication demonstrates The monograph has been organized into sections by subject areas i e Medicine Allied Health Sciences and Social Services Agricultural and Food Science Earth and Environmental Sciences and Engineering Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical vantage without regards to their native language or ethnical background Some of the entries may surprise you because their Czech or Slovak ancestry has not been generally known What is conspicuous is a large percentage of listed individuals being Jewish which is a reflection of high level of education and intellect of Bohemian Jews A prodigious number

of accomplished women in this study is also astounding considering that in the 19th century they rarely had careers and most professions refused entry to them

Wikinomics Don Tapscott, Anthony D. Williams, 2008-04-17 The acclaimed bestseller that's teaching the world about the power of mass collaboration Translated into more than twenty languages and named one of the best business books of the year by reviewers around the world Wikinomics has become essential reading for business people everywhere It explains how mass collaboration is happening not just at Web sites like Wikipedia and YouTube but at traditional companies that have embraced technology to breathe new life into their enterprises This national bestseller reveals the nuances that drive wikinomics and share fascinating stories of how masses of people both paid and volunteer are now creating TV news stories sequencing the human genome remixing their favorite music designing software finding cures for diseases editing school texts inventing new cosmetics and even building motorcycles

Receptions of Simon Magus as an Archetype of the Heretic Alberto Ferreiro, Ephraim Nissan, 2023-10-14 This book about receptions of Simon Magus uncovers further facets of one who was held to be the evil archetype of heretics Ephraim Nissan and Alberto Ferreiro explore how Simon Magus has been represented in text visual art and music Special attention is devoted to the late medieval Catalan painter Lluís Borrassà and the Italian librettist and musician Arrigo Boito The tradition of Simon Magus demonic flight ending in his crashing down first appears in the patristic literature The book situates that flight typologically across cultures Fascinating observations emerge as the discussion spans flight of the wicked in rabbinic texts flight and death of King Lear's father and a Soviet era Buryat Buddhist monk flight and doom of the fool in an early modern German broadsheet and more The book explains and moves beyond extant scholarly wisdom on how the polemic against Mani the founder of Manichaeism was tinged with hues of Simon Magus The novelty of this book is that it shows that Simon Magus receptions teach us a great deal about the contexts in which this archetype was deployed

National and Transnational Memories of the Kindertransport Amy Williams, William Niven, Bill Niven, 2023 The first transnational study of the memory of the Kindertransport and the first to explore how it is represented in museums memorials and commemorations The Kindertransport the rescue of ca 10 000 Jewish children from the Nazi sphere of control and influence before the Second World War has often been framed as a British story This book recognizes that even though most of the Kinder were initially brought to the UK and many stayed it was more than that It therefore compares British memory of the Kindertransport to that of other host nations the US Canada Australia and New Zealand It is the first book to ask how the Kindertransport is remembered both in the countries of origin particularly Germany and in the host nations as well as the first to analyze how it is represented in museums memorials and commemorations Seeing memory of the Kindertransport in the host nations and in Germany as significantly different the study argues that the different national memory discourses around the Nazi persecution of Jews shape the respective countries' images of the Kindertransport and that those images in turn shape the discourses especially in Britain Yet while national memory frameworks remain crucial to how the Kindertransport is

remembered the book also documents the increasing significance of transnational memory trends that link the host nations with each other and with the countries from which the children originated *The Vampire Dancer Saga* Shalimar Ali, 2012-12-11 Dance History Tribute to Michael Jackson Patrick Swayze Jennifer Beals Debbie Allen Janet Jackson Gregory Hines Mel Brooks John Travolta Olivia Newton John Deney Terrio Liza Minnelli Sonny Cher Elvis Presley Dick Van Dyke Mary Tyler Moore Annette Funicello Bob Fosse Jerome Robbins Cyd Charisse Gene Kelly Donald O Connor Debbie Reynolds Chubby Checkers Judy Garland Diana Ross Buddy Ebsen Jack Haley Bert Lahr Eleanor Powers Ginger Rogers Fred Astaire Busby Berkeley Bill Bojangles Robinson Nicholas Brothers Carmen Miranda Carolina La Belle Otero Rita Moreno Loie Fuller Cheryl Burke Peta Murgatroyd Derek Huff Maksim Chmerkovskiy Lacy Schwimmer Benji Schwimmer Eliana Girard Dancing with the Stars So You Think You Can Dance Join your favorite dance celebrities past present and future as they compete to DANCE OR DIE Celebrate every holiday from January through December and Vamptember with an homage to recipes from the upcoming cookbook from the Author Get updates and other special features on our Blog Join today to participate comment <http://learnbellydancewithshalimarali.com>
