White Planter Manual:

The Forest Tree Planter's Manual Minnesota State Forestry Association, Leonard Bacon Hodges, 1880 **Coconut Planter's Manual** ,1907 The Coffee Planter's Manual for Both the Arabian and Liberian Species John Ferguson, 1898

The Sugar-planter's Manual William Julian Evans, 1847 Southern Provisions David S. Shields, 2015-03-23 A look into the agricultural and culinary history of the American South and the challenges of its reclaiming farming and cooking traditions Southern food is America's quintessential cuisine From creamy grits to simmering pots of beans and greens we think we know how these classic foods should taste Yet the southern food we eat today tastes almost nothing like the dishes our ancestors enjoyed because the varied crops and livestock that originally defined this cuisine have largely disappeared Now a growing movement of chefs and farmers is seeking to change that by recovering the rich flavor and diversity of southern food At the center of that movement is historian David S Shields who has spent over a decade researching early American agricultural and cooking practices In Southern Provisions he reveals how the true ingredients of southern cooking have been all but forgotten and how the lessons of its current restoration and recultivation can be applied to other regional foodways Shields's turf is the southern Lowcountry from the peanut patches of Wilmington North Carolina to the sugarcane fields of the Georgia Sea Islands and the citrus groves of Amelia Island Florida He takes us on a historical excursion to this region drawing connections among plants farms growers seed brokers vendors cooks and consumers over time Shields begins by looking at how professional chefs during the nineteenth century set standards of taste that elevated southern cooking to the level of cuisine He then turns to the role of food markets in creating demand for ingredients and enabling conversation between producers and preparers Next his focus shifts to the field showing how the key ingredients rice sugarcane sorghum benne cottonseed peanuts and citrus emerged and went on to play a significant role in commerce and consumption Shields concludes with a look at the challenges of reclaiming both farming and cooking traditions From Carolina Gold rice to white flint corn the ingredients of authentic southern cooking are returning to fields and dinner plates and with Shields as our guide we can satisfy our hunger both for the most flavorful regional dishes and their history Praise for Southern Provisions People are always asking me what the most important book written about southern food is You are holding it in your hands Sean Brock executive chef Husk An impassioned history of the relationship between professional cooking markets and planting in the American South which argues that true regionality is to be found not in dishes but in ingredients Times Literary Supplement Necropolis Kathryn Olivarius, Kathryn Meyer McAllister Olivarius, 2022-04-19 Winner of the Frederick Jackson Turner Award Winner of James H Broussard Best First Book Prize SHEAR Winner of the Kemper and Leila Williams Prize in Louisiana History Winner of the Humanities Book of the Year Award Louisiana Endowment for the Humanities A brilliant book This transformative work is a pivotal addition to the scholarship on American slavery Annette Gordon Reed A stunning account of high risk high reward profiteering in the yellow fever ridden Crescent

City a world in which a deadly virus altered every aspect of a brutal social system exacerbating savage inequalities of enslavement race and class John Fabian Witt author of *American Contagions* Olivarius s new perspectives on yellow fever immunocapitalism and the politics of acclimation will influence a generation of scholars to come on the intersections of racism slavery and public health The *Lancet* In antebellum New Orleans at the heart of America s slave and cotton kingdoms epidemics of yellow fever killed as many as 150 000 people With little understanding of the origins of the illness and meager public health infrastructure one s only hope if infected was to survive providing the lucky few with a mysterious form of immunity Repeated epidemics bolstered New Orleans s strict racial hierarchy by introducing another hierarchy a form of immunocapital as white survivors leveraged their immunity to pursue economic and political advancement while enslaved Blacks were relegated to the most grueling labor The question of health who has it who doesn t and why is always in part political Necropolis shows how powerful nineteenth century Orleanians constructed a society that capitalized on mortal risk and benefited from the chaos that ensued **Wallace's Farmer** ,2010 *Working Cures* Sharla M. Fett,2002 *Working Cures* explores black health under slavery showing how herbalism conjuring midwifery and other African American healing practices became arts of resistance in the antebellum South and invoked conflicts **Catalogue of the Mercantile Library of Philadelphia** Mercantile Library of Philadelphia,1870 [Catalogue of the Mercantile Library of Philadelphia](#) ohne Autor,2020-04-08 Reprint of the original first published in 1870 *Catalogue of the Mercantile Library of Philadelphia. King, Ellen E. Swartz,2015-08-27 *The Afrocentric Praxis of Teaching for Freedom* explains and illustrates how an African worldview as a platform for culture based teaching and learning helps educators to retrieve African heritage and cultural knowledge which have been historically discounted and decoupled from teaching and learning The book has three objectives To exemplify how each of the emancipatory pedagogies it delineates and demonstrates is supported by African worldview concepts and parallel knowledge general understandings values and claims that are produced by that worldview To make African Diasporan cultural connections visible in the curriculum through numerous examples of cultural continuities seen in the actions of Diasporan groups and individuals that consistently exhibit an African worldview or cultural framework To provide teachers with content drawn from Africa s legacy to humanity as a model for locating all students and the cultures and groups they represent as subjects in the curriculum and pedagogy of schooling This book expands the Afrocentric praxis presented in the authors *Re membering History in Teacher and Student Learning* by combining re membered democratized historical content with emancipatory pedagogies that are connected to an African cultural platform *Black Woman's Burden* N. Rousseau,2009-09-28 *Black Woman s Burden* examines the historical endeavors to regulate Black female sexuality and reproduction in the United States through methods of exploitation control

repression and coercion The myth of the angry Black woman has been built over generations through clever rhetoric and oppressive social policy Here Rousseau explores the continued impact of labeling and stereotyping on the development of policies that lead to the construction of national racial and gender identities for Black women

Caribbean New Orleans
Cécile Vidal, 2019-04-23 Combining Atlantic and imperial perspectives Caribbean New Orleans offers a lively portrait of the city and a probing investigation of the French colonists who established racial slavery there as well as the African slaves who were forced to toil for them Casting early New Orleans as a Caribbean outpost of the French Empire rather than as a North American frontier town Cécile Vidal reveals the persistent influence of the Antilles especially Saint Domingue which shaped the city's development through the eighteenth century In so doing she urges us to rethink our usual divisions of racial systems into mainland and Caribbean categories Drawing on New Orleans's rich court records as a way to capture the words and actions of its inhabitants Vidal takes us into the city's streets market taverns church hospitals barracks and households She explores the challenges that slow economic development Native American proximity imperial rivalry and the urban environment posed to a social order that was predicated on slave labor and racial hierarchy White domination Vidal demonstrates was woven into the fabric of New Orleans from its founding This comprehensive history of urban slavery locates Louisiana's capital on a spectrum of slave societies that stretched across the Americas and provides a magisterial overview of racial discourses and practices during the formative years of North America's most intriguing city

Slavery, Geography and Empire in Nineteenth-Century Marine Landscapes of Montreal and Jamaica Charmaine A. Nelson, 2017-07-05 Slavery Geography and Empire in Nineteenth Century Marine Landscapes of Montreal and Jamaica is among the first Slavery Studies books and the first in Art History to juxtapose temperate and tropical slavery Charmaine A. Nelson explores the central role of geography and its racialized representation as landscape art in imperial conquest One could easily assume that nineteenth century Montreal and Jamaica were worlds apart but through her astute examination of marine landscape art the author re-connects these two significant British island colonies sites of colonial ports with profound economic and military value Through an analysis of prints illustrated travel books and maps the author exposes the fallacy of their disconnection arguing instead that the separation of these colonies was a retroactive fabrication designed in part to rid Canada of its deeply colonial history as an integral part of Britain's global trading network which enriched the motherland through extensive trade in crops produced by enslaved workers on tropical plantations The first study to explore James Hakewill's Jamaican landscapes and William Clark's Antigua genre studies in depth it also examines the Montreal landscapes of artists including Thomas Davies Robert Sproule George Heriot and James Duncan Breaking new ground Nelson reveals how gender and race mediated the aesthetic and scientific access of such mainly white male artists She analyzes this moment of deep political crisis for British slave owners between the end of the slave trade in 1807 and complete abolition in 1833 who employed visual culture to imagine spaces free of conflict and to alleviate their pervasive anxiety about slave

resistance Nelson explores how vision and cartographic knowledge translated into authority which allowed colonizers to civilize the terrains of the so called New World while belying the oppression of slavery and indigenous displacement The
