Bottleneckers William Mellor, Dick M. Carpenter II, 2016-12-13 Bottleneckers is a person who advocates for the creation or perpetuation of government regulation particularly an occupational license to restrict entry into his or her occupation thereby accruing an economic advantage without providing a benefit to consumers The Left Right and Center all hate them powerful special interests that use government power for their own private benefit In an era when the Left hates fat cats and the Right despises crony capitalists now there is an artful and memorable one word pejorative they can both get behind bottleneckers A bottleneckers is anyone who uses government power to limit competition and thereby reap monopoly profits and other benefits Bottleneckers work with politicians to constrict competition entrepreneurial innovation and opportunity They thereby limit consumer choice drive up consumer prices and they support politicians who willingly overstep the constitutional limits of their powers to create maintain and expand these anticompetitive bottlenecks The Institute for Justice's new book Bottleneckers coins a new word in the American lexicon and provides a rich history and well researched examples of bottleneckers in one occupation after another from alcohol distributors to taxicab cartels pointing the way to positive reforms *The Manager's Guide to Employee Development* David Hosmer, 2014-07-18 As managers we are expected to hold career and professional development discussions with our employees although many of us feel ill equipped for these conversations Are you unsure how or where to begin with your employees development Perhaps you want to brush up on how to create more meaningful development plans This TD at Work is a primer intended for managers human resources professionals and others It is a practical go to guide that will explain why career development is important to the organization employee and manager who is responsible for specific aspects of the employee development process how to facilitate the employee development process the characteristics of a strong individual development process how to lead successful development discussions **The Trump Effect** L. Rowan Archer, 2022-11-03 With the election of Donald Trump on November 8 2016 Americans experienced a sense of relief and joy knowing they could again participate in a vibrant business environment that offers them the power of self determination and the freedom to pursue their life goals and live according to their faith unencumbered by political correctness and the stifling ideology of creeping socialism For the last fifty or so years the dark side left have through academia the entertainment industry deep state bureaucrats and the liberal big media successfully been undoing the centuries old institutions of free market economies which has created unprecedented wealth the world over In its place the dark side left have been molding these institutions to reflect their warped ideology of a new socialist world order with no borders and based on a Marxist progressive left utopia an oxymoron if there ever is one The long term strategy for achieving their transition relies on undermining the economic engine by enacting burdensome big

government regulations by imposing political correctness and identity politics into our daily conversations social interactions and norms and finally by attacking one's religious faith and values The dark side left's long march through the culture has resulted in the indoctrination of each new generation using the direct influence of academia movies and television programs the daily news coverage and government policy Miraculously as if by divine intervention after just one year of his presidency Donald Trump has managed to force into the open this sinister plot by the dark side left with the world now acutely aware of the serious bias of the liberal big media the corruption present at the senior levels of the intelligence branches left behind by the Obama administration the serious extent of liberal bias in academia and their effort to restrict free speech and the self interest of lawmakers seeking self enrichment from Washington's swamp dwelling domestic and foreign lobbyists With his unwavering commitment to work on behalf of the American people Trump has almost single handedly inflicted journalists and the political elites with varying degrees of Trump derangement syndrome and exposing their warped self serving values resulting in them becoming almost totally incapable of providing unbiased insightful political arguments on current issues for their audience Because of President Trump the world is witnessing the excruciating collapse of the dark side left and the Washington swamp His ability to navigate through the minefields laid by the bipartisan swamp and the liberal big media can only be answered through our faith in God who in all his wisdom has chosen this man to save free market countries and its people from the evils of the dark side left and their elitist minions

Does Collective Impact Work? Frank Ridzi, Margaret Doughty, 2017-10-04 The book seeks to demonstrate the ways in which collective impact approaches have guided the development of literacy coalitions over time Since community collaboration strategies developed to address social issues coalitions have grown from small networking organizations to powerful forces for change The history of literacy coalitions offers a timeline outlining the why who what where when and how of communities that were influenced by social and political changes and the ways coalitions responded and thrived The lack of literacy has held back economic development in the US and coalitions shine a light on issues associated with illiteracy and low school achievement Not all coalitions succeed and the book explores models of success funding strategies evaluation and impact The goal is to assist those developing coalitions by providing not only lessons learned but a blueprint for success
