

Study Guide for Microeconomics

Basic Economic concepts and gains from trade

Q: What is Economics?

A: Economics is the study of how society manages its scarce resources.

Q: What is scarcity in our society?

A: Scarcity means that society has limited resources and cannot produce all the goods and services people wish to have.

Q: What's Opportunity Cost?

A: Opportunity cost (Economics Cost) is the process of choosing one good or service over another. The item that you don't pick is the opportunity cost. The value of the next-best alternative that must be forgone in order to undertake the activity

Q: What is the law of increasing opportunity cost?

A: The opportunity cost of each additional unit of product is greater than the opportunity cost of the preceding one. Producers use the resources with the lowest opportunity cost before turning to those with higher opportunity costs.

Q: What is Production Possibilities Frontier?

A: A graph that shows the combinations of output that economy can possibly produce given the available factors of production and the available production technology.

Q: What is absolute advantage?

A: The producer that requires a smaller quantity of inputs to produce a good is said to have an absolute advantage in producing that good

Q: What is comparative advantage?

A: The producer who has the smaller opportunity cost of producing a good is said to have a comparative advantage in producing that good.

Q: How and why does a producer need to specialization in production?

A: Producers would be better off if they specialize in producing the product they are more suited to produce, and then trade with each other.

Q: What are gains from Trade?

A: Whenever potential trading parties have differences in opportunity costs, they can each benefit from trade.

Owen,Larry R. Cross,1984 *Australian National Bibliography: 1992* National Library of Australia,1988 The Biological Weapons Taboo Michelle Bentley,2023-09-19 The non use of biological weapons has been described as the great mystery of biological warfare The Biological Weapons Taboo solves that mystery by analysing the bioweapons taboo in the first comprehensive study of the concept Bentley explains precisely why bioweapons are perceived as repulsive and how this sentiment is consequently expressed in the form of political behaviours including the refusal to engage in biological aggression Drawing on extensive archival evidence this volume looks back on United States foreign policy decision making particularly in relation to the Geneva Protocol and the Biological Weapons Convention to demonstrate how and why the taboo

has comprised a decisive factor in shaping both biowarfare strategy and political rhetoric and why the taboo needs to be recognised as a necessary consideration in the study of bioweapons In analysing a taboo the volume also takes the debate on international norms forward by questioning and challenging the wider analytic comprehension of taboo itself Rejecting current definitions of the concept as inadequate Bentley proposes a new and original model of understanding based on the normative characteristics of disgust stigmatization and fetishization University of the South Pacific, Publications ,1996
