NURSING: The Ultimate Study Guide Nadia R. Singh,2011-11-17 Print CourseSmart **Working with Interpreters and Translators** Henriette W. Langdon,Terry Irvine Saenz,2015-10-15 Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists offers state of the art procedures to conduct interviews assessments and conferences with students with limited English language proficiency and their families As no research base is available in the field of communicative disorders on this specific topic the information presented in this guide is supported by a critical

review of the literature on best practices in interpreting for international conferences and legal and medical fields Furthermore the authors experience working with language interpreters and training professionals as well as graduate students in communicative disorders makes this a very valuable resource for professionals interpreters translators as well as undergraduate and graduate students Federal and state laws specify that if necessary English language learners ELL need to be assessed in their native language when referred for possible special education The number of ELL students attending public schools across the nation has increased in the past few decades There are not enough speech language pathologists SLPs or audiologists who are proficient in the various languages spoken by ELL students even in Spanish the most common language spoken by ELL students in the United States The next best solution is to conduct assessments in collaboration with a trained interpreter translator Key features include Information and references for the most common languages spoken by ELL students Discussion of culturally based variables that need to be considered in the process of interviewing and working with linguistically and culturally diverse populations Description of the roles and responsibilities for individuals who will be collaborating as interpreters and translators with SLPs and audiologists in various contexts such as interviews assessments and various meetings such as IEPs and IFSPs as well as suggestions on training individuals in this collaborative process Review of best practices in speech language and audiological assessments both with and without materials in the given language Disclaimer Please note that ancillary content such documents audio and video may not be included as published in the original print version of this book Working with Interpreters and Translators A Guide for Speech Language Pathologists and Audiologists is a must have reference for anyone working with ELL students Although the process was developed with the pediatric population in mind much of this information can be applied to older culturally and linguistically diverse populations in need of speech language and or hearing services It will also be useful to professionals working with language interpreters in allied health professions in other countries

PUBLISHER TEKTIME Intercultural Mediation in Healthcare: Izabel E. T. de V. Souza Ph.D., 2016-08-12 Cultural
differences pose certain complexities to the work of medical interpreters They face unique and sometimes conflicting
demands from healthcare providers culturally diverse patients and their healthcare organizations It is important for this topic
to be explored from the professional interpreters perspective as they are the ultimate experts of their own practice Their
accounts point to the fact that intercultural mediation is an integral and important part of their work and that the vast
majority of interpreters worldwide is practicing it competently and responsibly Intercultural Mediation in Healthcare

showcases the results of an international doctoral study exploring the perspectives of 458 interpreter practitioners from 25 different countries. The book reveals the intricacies of how interpreters are bridging cultural gaps between providers and patients with data compiled and cross referenced from four different sources. Academic research and published standards of practice for the profession were reviewed and analyzed. Interpreters were ultimately given a voice to describe this important component of their work. According to medical interpreters, they play a significant role in intercultural communication mediation, a role that goes well beyond being a linguistic conduit. A deeper understanding of what intercultural mediation is and what it isn't is essential not only to interpreters but also to other related stakeholders: educators, researchers, administrators, and policy makers, or anyone who wishes to better understand where interpreters fit in the provision of culturally and linguistically appropriate services.
