The Church Alumni Association Robert P. Vande Kappelle, 2021-08-10 Many people today including Christians of deep conviction are deciding for one reason or another to stop attending church They have been swept up by the avalanche in America known simply as the nones thereby joining the ranks of the religiously unaffiliated dubbed the church alumni association or perhaps more accurately believers in exile by Anglican Bishop John Shelby Spong Research shows that during the first two decades of the twenty first century a seismic shift occurred in the U S population away from religious institutions and toward disaffiliation While the causes and effects of this dislocation are varied and numerous by 2015 the phenomenon of shrinking faith communities was so widespread that nones became the third largest religious identity in the world behind Christians and Muslims Today there are more religious nones than Catholics or evangelicals and 36 percent of those born after 1981 do not identify with any religion Does this shift mark a loss of spirituality or do these changes point to a new global religious awakening one that affirms religious pluralism and views faith relationally rather than dogmatically as a way of the heart and not of the head While some Christians are staying put experiencing the current shift in traditional church settings this book proposes a new understanding of the church a new pattern and vision for Christian living and thinking that can transform our understanding of God others nature and ourselves Useful for individual or church study each chapter of The Church Alumni Association concludes with questions for discussion and reflection

4Th Michael Ebifegha,2017-12-20 4th Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters The Darwinian theory of evolution begins with facts science of microevolution and ends with fiction myths of macroevolution The myths are part of our experience no transitional organisms in the living world and part of our discoveries no transitional fossils in such deposits at the Burgess Shale and Chengjiang sites where various kinds of organisms appear together in large collection In his fourth book Refuting the Myth of Evolutionism and Exposing the Folly of Clergy Letters author Michael Ebifegha stresses that real science is timeless and based on events that are directly or indirectly observable testable and repeatable Challenging evolutionists and their clerical allies who are banning the teaching of creationism in public schools Ebifegha insists that evolutionism is also outside sciences purview and therefore should be banned as well He reprimands clerics for capitalizing on human knowledge but failing to recognize the validity of Gods personal claim in speech before an audience and in print on stone tablets for having created the world These interventions he asserts fulfills the worlds standard legal requirement for inventors Ebifegha argues that the inconsistency of imposing evolutionism as scientific truth on the public and banning creationism violates 1 the academic rights of accomplished scientists who disagree with evolutionism on scientific grounds 2 the US Supreme Courts 1992 declaration At the heart of liberty is the right to define ones own concept of existence of meaning of the universe and of the mystery of human life and 3 Gods historical claim to ownership of the universe Instead of separation of church and state Ebifegha recommends separation of worldviews and state
