Invisible Labour in Modern Science Jenny Bangham, Xan Chacko, Judith Kaplan, 2022-09-01 Invisible Labour in Modern Science is about the people who are concealed eclipsed or anonymised in accounts of scientific research Many scientific workers including translators activists archivists technicians curators and ethics review boards are absent in publications and omitted from stories of discovery Scientific reports are often held to ideals of transparency yet they are the result of careful judgments about what and what not to reveal Professional scientists are often celebrated yet they are expected to uphold principles of objective self denial The emerging and leading scholars writing in this book negotiate such silences and omissions to reveal how invisibilities have shaped twentieth and twenty first century science Invisibility can be unjust it can also be powerful What is invisible to whom and when does this matter How do power structures built on hierarchies of race gender class and nation frame what can be seen And for those observing science When does the recovery of the invisible serve social justice and when does it invade privacy Tackling head on the silences and dilemmas that can haunt historians this book transforms invisibility into a guide for exploring the moral sensibilities and politics of science and its history

America's prisoners living conditions and political concerns These concerns are not normally the concerns of most Americans but they should be From substandard medical care the inadequacy of resources for public defenders to the death penalty the issues covered in this volume grow more urgent every day Articles by outstanding writers such as Mumia Abu Jamal Noam Chomsky Mark Dow Judy Green Tracy Huling and Christian Parenti chronicle the injustices of prison privatization class and race in the justice system our quixotic drug war the rarely discussed prison AIDS crisis and a judicial system that rewards mostly those with significant resources or the desire to name names Correctional facilities have become a profitable growth industry for companies like Wackenhut that run them and companies like Boeing that use cheap prison labor With fascinating narratives shocking tales and small stories of hope Prison Nation paints a picture of a world many Americans know little or nothing about

Investigating the Stanford Prison Experiment Thibault Le Texier, 2024-08-08 In 1971 psychologist Philip Zimbardo ran the now famous Stanford prison experiment to show that prison could make normal people behave in pathological ways Based on the first thorough investigation in the archives of the experiment and on interviews with about half of its participants this book shows that the Stanford prison experiment is far from being scientific In particular the guards knew what results were expected from them they were trained and supervised by the experimenters and they were following a schedule and a set of rules written by the experimenters The experimenters deceived the guards and made them believe they were not subjects They also borrowed many elements from a previous student experiment without disclosing this information in their reports The prisoners were not allowed to leave the experiment at will and they were conditioned by the experimenters The mock prison situation was unrealistic Most participants did not forget they were participating in an experiment and many responded to demand characteristics The data was not collected properly And the conclusions were pre written according to non academic aims This book goes beyond the experiment to provide ample background and context in order to understand how the experiment was planned financed recorded and divulged in the press and within the academic It discusses also the role played by Philip Zimbardo in the trial of one of the guards of Abu Ghraib as well as the impact of mass media on science the debates between personal psychology and social psychology and the specific nature of cold war social science

Bernstein,2024-06-16 Palestinian Political Organizations in Israeli Prisons examines the evolution and changes within the Palestinian Prisoners Movement and the structural opportunities and constraints that inform collective resistance today Drawing on observation based fieldwork and over 40 interviews with ex prisoners and additional interviews with lawyers and advocates this book presents a sociological account of Palestinian prisoners in Israel an important reflection of the wider Israeli Palestinian conflict The Oslo Accords the peace agreements between the Palestinian Liberation Organization and Israel transformed not only Palestinian politics but the entire prison environment By exploring issues including the specific characteristics of women s resistance the effects of the Islamicization new hunger strike strategies consumerism within the prison parenting children and escapes Palestinian Political Organizations in Israeli Prisons offers a fresh analysis of political resistance in Israeli prisons Applying a social movement approach and drawing comparisons to other politically motivated prisoner groups the book traces the effects of changes from the Oslo Accords through to today including the Second Intifada the split between Hamas and Fatah the co option of the Palestinian Authority and increasingly systematic prison management explaining how these factors have affected life for Palestinian prisoners in Israeli prisons and influence conflicts today *Prison Food* An-Sofie Vanhouche,2022-06-11 Based on the lived experiences of incarcerated persons and staff this book explores the symbolic significance of prison foodways to normalization autonomy identity construction power group formation and security The book also traces the rationalization s that policy makers attach to prison food from the water and bread diet of the 18th century the contested abolition of alcohol consumption to the current fear surrounding the spread of COVID 19 through food distribution in prisons The argument is developed that prison food policies have always reflected how Belgian governments have treated imprisoned persons The emphasis on Belgian prisons and the discussions on prison foodways situated on a micro and macro level add a unique flavour to prison food scholarship by providing a deeper understanding of a

penal culture outside the dominant tradition of Anglo Saxon and Nordic studies Consequently the book provides a nuanced conception of prison foodways for penologists sociologists those with interests in wider prison policy and those working on the socio cultural role of food in closed environments
