The Agony Of Modernization:

The Agony of Modernization Benjamin Martin, 1990 Analyses the evolution of the Spanish labour movement from the birth of trade unionism in the 1840s to the Civil War 1936 1939 Examines Spain's socioeconomic foundation and the formation of the modern labour force as well as early efforts to institute social reforms *The Francoist Military Trials* Peter Anderson, 2009-09-10 In Spain between 1936 1945 the Franco regime carried out one Europe's more brutal but less remembered programs of mass repression Many were murdered by the regime's death squads and in some areas Francoists also subjected up to 15% of the population to summary military trials Here many suffered the death sentence or jail terms up to thirty years Although historians have recognised the staggering scale of the trials they have tended to overlook the mass participation that underpinned them In contrast to the discussion in other European countries little attention has been paid to the wide scale collusion in the killings and incarcerations in Spain Exploring mass complicity in the trials of hundreds of thousands of defeated Republicans following the end of the Spanish Civil War *The Francoist Military Trials* probes local Francoists accusations whereby victims were selected for prosecution in military courts It also shows how insubstantial and hostile testimony formed the bedrock of investigations secured convictions and shaped the harsh sentencing practices of Franco's military judges Using civil court records it also documents how grassroots Francoists continued harassing Republicans for many years after they emerged from prison Challenging the popularly prevalent view that the Franco regime imposed a police state upon a passive Spanish society the evidence Anderson uncovers here illustrates that local state officials and members of the regime's support base together forged a powerful repressive system that allowed them to wage war on elements of their own society to a greater extent than perhaps even the Nazis managed against their own population

Intellectual Discourse and the Politics of Modernization Ali Mirsepassi, 2000-10-12 In this thought provoking study Ali Mirsepassi explores the concept of modernity exposing the Eurocentric prejudices and hostility to non Western culture that have characterized its development Focusing on the Iranian experience of modernity he charts its political and intellectual history and develops a new interpretation of Islamic Fundamentalism through the detailed analysis of the ideas of key Islamic intellectuals The author argues that the Iranian Revolution was not a simple clash between modernity and tradition but an attempt to accommodate modernity within a sense of authentic Islamic identity culture and historical experience He concludes by assessing the future of secularism and democracy in the Middle East in general and in Iran in particular A significant contribution to the literature on modernity social change and Islamic Studies this book will be essential reading for scholars and students of social theory and change Middle Eastern Studies Cultural Studies and many related areas *Women's Work* Rebecca Ingram, 2022-09-15 Winner Gourmand World Cookbook Awards 2023 Best Women of the World Book Spain We are living in a moment in which famous chefs Michelin stars culinary techniques and gastronomical accolades attract moneyed tourists to Spain from all over the world This has prompted the Spanish

government to declare its cuisine as part of Spanish patrimony Even with this widespread global attention we know little about how Spanish cooking became a litmus test for demonstrating Spain's modernity and relatedly the roles ascribed to the modern Spanish women responsible for daily cooking Efforts to articulate a new modern Spain infiltrated writing in multiple genres and media Women's Work offers a sharp reading of diverse sources placed in their historical context that yields a better understanding of the roles of food within an inherently uneven modernization process Further author Rebecca Ingram's perceptive critique reveals the paradoxical messages women have navigated even in texts about a daily practice that shaped their domestic and work lives Women's Work posits that this is significant because of the degree to which domestic activities including cooking occupied women's daily lives even while issues like their fitness as citizens and participation in the public sphere were hotly debated At the same time progressive intellectuals from diverse backgrounds began to invoke Spanish cooking and eating as one measure of Spanish modernity Women's Work shows how culinary writing engaged these debates and reached women at the site of much of their daily labor the kitchen and in this way shaped their thinking about their roles in modernizing Spain

The Dynamics of Modernization Cyril Edwin Black, 1966 Governance and Political Adaptation in Fragile States John Idriss Lahai, Karin von Strokirch, Howard Brasted, Helen Ware, 2018-07-21 The book examines the various ways that fragile states or states with limited statehood in Africa Asia the Pacific and the Americas have adopted and adapted to the processes of liberal political governance in their quests to address the problem of political fragility It presents the stories of resilience in the political adaptation to Western liberal conceptions of governance In addition to singular or comparative country case studies this project also examines the interplay of culture identities and politics in the creation of people centric governance reforms Towards these ends this volume sheds light on weak states often constructive engagement in the promotion of state governance with a variety of political conditions adverse or otherwise and their ability to remain resilient despite the complex political sociocultural and economic challenges affecting them Through a multidisciplinary approach the authors aim to counter the noticeable shortcomings in the discursive representations of fragility and to contribute a more balanced examination of the narratives about and impact of political adaption and governance in people's lives and experiences

Modern Spain Francisco J. Romero Salvadó, 2024-08-22 Using a wealth of varied sources this book is an inspiring and essential gateway to understanding the foundations of modern Spain Francisco J Romero Salvadó employs a chronological framework to chart the country's experience commencing with the Restoration of the Bourbon Monarch in 1874 up to the present day Modern Spain is a vital contribution to the study and debate of this country's history and politics It provides a thorough yet concise study of nearly 150 years of tumultuous historical evolution It examines the crisis of traditional liberal politics and the subsequent ill fated attempts at reform through the military dictatorship headed by General Miguel Primo de Rivera and the progressive Second Republic that ensued The outcome being three years of tragic civil war followed by the long 40 year dictatorship of General Francisco Franco It concludes by

exploring Spain's successful and surprisingly rapid transition to democracy and the challenges that it now faces in the 21st century Romero Salvadó uproots the many myths and blatant distortions that have often surrounded the history of Spain By offering an analysis within a European context he also challenges the traditional view of the exceptional character of the country encapsulated in the motto Spain is different On the contrary this book so convincingly contends Spain is a perfect example to show the troubled and often violent path to modernity that western societies had to undergo in their transition from elite to mass politics

Problems of Communism, 1981

The Lost Worlds of Rhodes Nathan Shachar, 2013

Focuses on the Sephardi community Spanish speaking Jews who arrived in Rhodes sometime after the Spanish expulsion edict of 1492 and who remained the largest single group within the old city walls until Italy adopted German racial legislation in 1938

The Foundations of Civil War Francisco J. Romero Salvadó, 2016-04-29 This book analyzes the decay of Liberal politics in Spain as the regional version of the general crisis that engulfed most of Europe between 1916 and 1923 Romero enriches the important wider debate about this watershed period of European history when in the face of unprecedented mass social protest and political mobilization incumbent governing elites struggled to find a valid formula of social containment in the dawning of mass politics which also saw the spread of the radical new doctrines of Bolshevism and Fascism Above all this book examines Spain's crisis of modernization a process marked by complex social and political realignments through which the nature of civil society was profoundly altered It resulted in an unprecedented spiral of violence and a polarization that firstly led to an authoritarian formula of social control in 1923 and ultimately to the outbreak of civil war in 1936

The Crisis Of Modernity Gunter H. Lenz, Kurt L. Shell, 2019-06-18 The crisis of the project of modernity Habermas is at the same time a crisis of critical theories of society and culture that have radically questioned bourgeois culture and capitalist society and economy from the perspective of a utopia of enlightened rationality A number of parallel recent social and political problems developments and

Democracy and Dictatorship in Europe Sheri Berman, 2019-01-04 At the end of the twentieth century many believed the story of European political development had come to an end Modern democracy began in Europe but for hundreds of years it competed with various forms of dictatorship Now though the entire continent was in the democratic camp for the first time in history But within a decade this story had already begun to unravel Some of the continent's newer democracies slid back towards dictatorship while citizens in many of its older democracies began questioning democracy's functioning and even its legitimacy And of course it is not merely in Europe where democracy is under siege Across the globe the immense optimism accompanying the post Cold War democratic wave has been replaced by pessimism Many new democracies in Latin America Africa and Asia began backsliding while the Arab Spring quickly turned into the Arab winter The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States Indeed it is increasingly common today for leaders intellectuals commentators and others to claim that rather than democracy some form dictatorship or illiberal democracy is

the wave of the future In *Democracy and Dictatorship in Europe* Sheri Berman traces the long history of democracy in its cradle Europe She explains that in fact just about every democratic wave in Europe initially failed either collapsing in upon itself or succumbing to the forces of reaction Yet even when democratic waves failed there were always some achievements that lasted Even the most virulently reactionary regimes could not suppress every element of democratic progress Panoramic in scope Berman takes readers through two centuries of turmoil revolution fascism civil war and finally the emergence of liberal democratic Europe in the postwar era A magisterial retelling of modern European political history *Democracy and Dictatorship in Europe* not only explains how democracy actually develops but how we should interpret the current wave of illiberalism sweeping Europe and the rest of the world

The Artist and Political Vision Benjamin R. Barber, Michael J. Gargas McGrath, Art and politics are often regarded as denizens of different realms but few artists have been comfortable with the notion of a purely aesthetic definition of art The artist has a public and thus political vision of the world interpreted by his art no less than the statesman and the legislator have a creative vision of the world they wish to make The sixteen original essays in this volume bear eloquent witness to this interpenetration of art and politics Each confronts the intersection of the aesthetic and the social each is concerned with the interface of poetic vision and political vision of reflection and action They take art in the broadest sense ranging over poets dramatists novelists essayists and filmmakers Their focus is on art and its political dilemmas not simply on the artist They consider the issues raised for politics and culture by alienation violence modernization technology democracy progress and revolution And they debate the capacity of art to stimulate social change and incite revolution the temptations of social control of culture and of political censorship the uncertain relationship between art and history the impact of economic structure on artistic creation and of economic class on artistic product the common ground between art and legislation and between creativity and control

The Developing World E. Ike Udogu, 2012-10-04 Nation states in the developing world have seen a renaissance in their political social and economic structures Newly industrializing countries like Brazil Mexico China and India are poised to claim the 21st century as their own But economic conditions in many nations of the developing world still leave much to be desired especially with respect to its marginalized citizens whose incomes are often less than two dollars a day Scholars continue to ask what academics political actors economic entrepreneurs and others committed to tackling the bane of underdevelopment in the developing world can do to improve the plight of these nations destitute populations *The Developing World Critical Issues in Politics and Society* explores the challenges presented by political cultural religious social and economic practices to the future development of these nation states The essays gathered here written by seasoned scholars with deep social political and academic roots in Africa Asia and Latin America explain how improvements in politics social arrangements and information communication technologies contribute to the effectiveness of emerging nations internal politics and their influence on world affairs Individual essays consider such key issues as how to develop more efficiently the processes of

liberal democratization how to apply more uniformly the law enforcement policies of governments to all citizens in a society how the marginalization of women hampers national development how the political development of Mexico as a linguistic regional power has influenced the rest of Central America how development and protection of the environment are linked how an effective application of information communication technologies can enhance the quality of education and boost growth at all levels in a polity This work will interest scholars focused on the developing world social and public policy international politics and social and political theory *Development and Communication in Africa* Charles Okigbo, Festus Eribo, 2004 Although Africa is the world's poorest continent it is a major emerging market and partner in the global village of the new millennium This book presents a wide array of perspectives on the problems and prospects of developing Africa Leading scholars in African studies and international communication analyze the socio political and cultural experiences in various communities focusing on key questions What is development What are the main issues surrounding development in Africa And how can communication per se be used to address the persistent problems of underdevelopment *The Peasantry of Eastern Europe* Ivan Volgyes, 2014-05-09 The Peasantry of Eastern Europe Volume II 20th Century Developments reviews research findings concerning rural life and rural transformation in Eastern Europe during the 20th century The economic and political problems of states where collectivization has been successful are examined including Hungary and Romania The social and societal aspects of rural transformation are also discussed Case studies of peasants in Russia are presented with emphasis on their response to the attraction of urban life and the imposed autocracy and tyranny of Soviet rule Comprised of 12 chapters this volume begins with an analysis of the conditions and the minds of Russia's peasants during the period 1900-1917 followed by a detailed account of the peasantry under Soviet rule The discussion then turns to private farming and the status of peasants in Poland since World War II land reform in Yugoslavia and agro mass production in Hungary Subsequent chapters explore rural transformation in Romania rural education in Bulgaria the transformation of the Hungarian peasantry in the 20th century peasantry in China and the role of women in the transformation of rural life in post revolution Yugoslavia The book also considers the Third World experience with rural transformation before concluding with an assessment of the peasantry of Eastern Europe under communism This monograph is intended for students academic specialists economists and agriculturists **Identity and Institutions** Neal G.
