Media Education Assessment Handbook William G. Christ, 2020-07-24 Assessing media education is a formidable task because both assessment and media education are complex and controversial concepts Assessment which can take place at the individual student class sequence program department or unit and university levels is questioned in terms of reliability validity relevance and cost Media education which has been challenged at a number of schools finds faculty and administrators in the midst of soul searching about how to clearly articulate its missions and purposes to a broader audience Departments are under increasing national state and institutional pressure to get assessment procedures carried out quickly but there is an obvious danger in rushing to implement assessment strategies before establishing what is essential in media education In communication education in general the what of assessment is often discussed in terms of skills attitudes affect values and knowledge People assess students to determine what they know think feel value and can do

Here it is suggested that one of the places to start defining what students should learn from their media education is by identifying outcomes. Outcomes can be assessed in a variety of ways but first they need to be developed and clearly articulated.

Tolley's Practical Risk Assessment Handbook Mike Bateman, 2006-08-14

Risk assessment has become the backbone of health and safety management in the UK and elsewhere. Employers have a legal duty to prove that risk assessments have been carried out and to ensure that appropriate precautions have been implemented. Mike Bateman demystifies the risk assessment process and how it relates to UK legislation. He covers both the general techniques and the assessment of specific risks such as hazardous substances COSHH noise manual handling Display Screen Equipment DSE workstations Personal Protective Equipment PPE fire asbestos and work at height. The book is practical in its approach to risk assessment rather than being overly legalistic or academic and tells the reader how to go about risk assessment not just what the legislation requires. It contains numerous checklists forms and worked examples for a variety of hazards and industries. This edition has been fully updated to take into account the impact of the following requirements on risk assessments: Work at Height Regulations 2005 full new chapter Control of Noise at Work Regulations 2005 Regulatory Reform Fire Safety Order RRFSo 2006. Mike Bateman runs his own health and safety consultancy and specialises in risk assessments. He is a corporate member of IOSH and a registered health and safety practitioner.
