

White Paper Template

Purpose

The purpose of this tool is to assist you with the creation of an effective White Paper. Focus on what is critical for your business, and modify this template as necessary.

Scope

Before you start, consider the purpose of your White Paper. Will this be used for internal knowledge management, external product/service marketing, or both? Can you repurpose this white paper and turn it into other pieces of content?

Use this template to document your ideas and give it to a good graphic designer so that they can put the finishing touches on it. When it comes to white papers, be sure to use a consistent structure and layout in order to make them easy to read and write.

Best Practices

- **Use industry reference data.** Find statistics, quotes and other reference material you can cite in your paper. It enhances your credibility and supports the perception that the paper is unbiased.
- **Use lots of graphics.** Great white papers are almost works of art. Invest in having a graphic designer collaborate on the design, layout and supporting graphics. It will improve the readability.
- **Use an outside reviewer.** Get someone who is an industry expert but does not work for you to review the paper. The last thing you want to happen is to invest in a white paper and publish it only to have prominent industry experts bash it. Ideally, you want the opposite to happen.
