

targets are elicited through picture naming and sentence repetition tasks. Data can be collected at both the word and sentence levels. Examiner responses are recorded and compared to a normative sample used to create normative data. The (GELA₂) has a mean of 100 and a standard deviation of 15. Standard scores that fall between 85 and 115 are considered average as they compare to the test's normative sample.

STUDENT 2 Scores: GPTA-2

Subtest	Raw Score	Standard Score	95% Confidence Interval	Percentile Rank
Sounds in Words				
Sounds in Sentences				

Performance Analysis: GPTA-2

STUDENT's articulation skills were formally assessed using the GELA₂. Assessment targets in the initial, medial and final positions of the word were elicited in single-word utterances and in sentences. To collect data in single-word utterances, **STUDENT** was presented with 48 colored pictures and was asked to name them spontaneously. During this task, **STUDENT** exhibited **X** speech errors and obtained a standard score of **X**. To collect data at the sentence level, **STUDENT** participated in sentence repetition tasks. During sentence repetition tasks **STUDENT** exhibited **X** speech errors and obtained a standard score of **X**.

Below is a table representative of the single word errors **STUDENT** exhibited during administration of the Sounds in Words subtest. The table also indicates the state's designated age at sound acquisition.

Error Type	Initial Position	Medial Position	Final Position	Designated Age at Acquisition (Years; Months)
Substitution				
Omission	Decrease Font Size			
Distortion				
Addition				

STUDENT's single word errors consisted of **substitutions/omissions/distortions/additions**. **Example**: single word errors were compared to the state of Missouri's normative data for sound acquisition. The state of Missouri's normative data for sound acquisition suggests that the **X** phonemes are typically acquired by **X** years of age. **STUDENT**'s word production of these phonemes **was not** considered developmentally appropriate at **STUDENT**'s chronological age level of **X** years, **X** months. The evaluating speech-language pathologist determined that **STUDENT**'s errors are not the result of dialectal differences or second language influence.

MISSOURI DEPT. PROGRAM ON EARLY CHILD LANGUAGE DEVELOPMENT (ELPA-2)

The ELPA-2 is a norm-referenced analysis of an individual's speech development and phonological process usage. It is designed for use with individuals between the ages of two and 21 years. The analysis is used to identify frequency of usage of twelve Core Phonological Processes grouped into four types (insertions, place, reduction, and voicing) and thirteen Supplemental and other processes used by the individual. The ELPA-2 requires the administration of the Sounds in Words subtest of the Goldsmith-Friesen Test of Articulation – Third Edition (GFTA-3). The target words of the (GFTA₃) are analyzed for sound changes and the sound changes are classified by phonological process(es). The total number of phonological

A Guide to Clinical Assessment and Professional Report Writing in Speech-Language Pathology Renee Fabus, 2024-06-01 Learning to assess speech and language disorders and write diagnostic reports may be an overwhelming experience especially when most texts don't cover both topics at once. With that in mind, *A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology* Second Edition combines the latest assessment protocols and diagnostic techniques with vital diagnostic report writing tools into a single definitive guide. Cyndi Stein, Rubin, Renee Fabus, and their contributors recognize that clinical assessment is inextricably linked to report writing and have updated this Second Edition to synthesize the two. Following the introductory chapters which discuss the basics of assessment and report writing, each subsequent chapter focuses on a particular disorder, provides in-depth assessment tools, and presents a corresponding sample report. **Key Features:** An inventory and explanation of formal and informal assessment measures; A glossary of key vocabulary; Sample case histories with assessment tools; Relevant and useful interview questions; Each disorder's background and characteristics; Assessment parameters; A differential diagnosis section; A model report. The accessible format of *A Guide to Clinical Assessment and Professional Report Writing in Speech Language Pathology* Second Edition will help students learn how to assess and document speech and language disorders and will also make for a perfect reference for them as clinicians for years to come.

Diagnostic Report Writing In Speech-Language Pathology Steven Blaustein, 2024-06-01 Designed to improve the report writing skills of speech language pathology students, communication sciences and disorders students, Clinical Fellows, and professionals alike, *Diagnostic Report Writing in Speech Language Pathology: A Guide to Effective Communication* is a one-of-a-kind text entirely dedicated to the production of an effective diagnostic speech and language evaluation. In today's academic and health care climate, accurate and clear documentation has never been more important. *Diagnostic Report Writing in Speech Language Pathology* seeks to demystify and simplify the challenges many students and clinicians face while learning to write speech and language evaluations by combining the science and art of assessment with an effective presentation. Dr. Steven H. Blaustein uses his more than 50 years of experience as a clinician, consultant, and professor to logically guide the reader through the necessary steps involved in the documentation of a speech and language evaluation. From discussing the initial reason for the referral and case history to the final summary, impressions, and recommendations, each step of the writing process is clearly explained. Topics included in *Diagnostic Report Writing in Speech Language Pathology*: Speech sound production; Oral peripheral examinations; Issues of law, fairness, and ethics; Critical information for the approval of services and third-party reimbursement; Common report writing errors to avoid; Images and tables to illustrate the process of documenting a speech and language evaluation.
