The contributions explore the broad spectrum of critical issues summoned up by Poitier's iconic work as actor, director, and filmmaker. Despite his stature, Poitier has actually been under-examined in film criticism generally. This work reconsiders his pivotal role in film and American race relations by arguing persuasively that even in this supposedly post-racial moment of Barack Obama, the struggles, aspirations, anxieties, and tensions Poitier's films explored are every bit as relevant today as when they were first made.
