The Cultural Cold War and the Global South Kerry Bystrom, Monica Popescu, Katherine Zien, 2021-07-27 This volume investigates the cultural sites where the global Cold War played out It brings to view unpredictable encounters that arose as writers artists filmmakers and intellectuals from or aligned with the Third World navigated the ideological and material constraints set by superpowers and emerging regional

powers Often these encounters generated *communitas* and solidarity while at times they fed old and new conflicts Pushing forward recent scholarship that tracks the Cold War in the Global South and draws on postcolonial approaches our contributors use archival secondary and ethnographic sources to trace the afterlives and memories of key figures and to explore meetings that performed cultural diplomacy Our focus on sites of encounter or exchange underscores the situated interpersonal and embodied dimensions through which much of the cultural Cold War was experienced While the global conflict divided citizens along ideological fault lines it also linked people through circulating media novels film posters journals and theatre and multinational conferences that brought artists intellectuals and political activists together Such contacts introduced new axes of solidarity and hierarchies of exclusion Examining these connections and disjunctures this new and necessary mapping of the cultural Cold War highlights under addressed locations in Asia Africa and Latin America

The Unequal Ocean Maximilian Viatori, 2023-04-11 Based on a decade of ethnographic and archival research in Peru this volume reveals how prevailing representations of the ocean obscure racialized disparities and the ways that different people experience the impacts of the climate crisis Tackling important subjects of global concern the author presents a complex image of Peru's global seascapes as historical spaces comprising precarious worlds that expose people nonhuman species and places to unequal levels of harm He traces how powerful actors in Peru represent the ocean in ways that erase the systemic inequalities histories of uneven development and extractive violence that have shaped ocean life These erasures underscore the need for alternative representations of the ocean that highlight the engagements and commitments that make oceanic ecologies possible as well as the material relationships and unequal positions of different people and species within them The author analyzes a multitude of timely topics including waves and coastal development the circulation of ocean waste El Niño warming events and the extraction of jumbo squid This book also addresses expanding scholarly interest in the world's oceans as sites for thinking about social inequities environmental politics and multispecies relationships
