Do not apply the patches to broken, red or irritated skin. Don't apply oils or talcum powder to the skin before applying the patch, as they will prevent it sticking properly. The patches must not be cut. Patch site should be rotated daily to avoid skin irritation. 	<ol style="list-style-type: none"> Skin irritation Insomnia and vivid dreams when the patch is left on overnight (can be minimized by removing the patch at bedtime). 	<ul style="list-style-type: none"> The patch has a long-acting, slow-acted pattern of nicotine delivery, producing relatively constant withdrawal relief over 24 hours, but requiring several hours to reach peak levels. If you exercise while wearing a nicotine patch the amount of nicotine absorbed into your bloodstream may increase, which could increase the side effects of nicotine. Patients who remove the patch at night and experience morning cravings for nicotine can use a short-acting form of nicotine replacement therapy (Gum) while waiting for the nicotine patch to take effect (it needs 0.5-3 hours after reapplication to reach the effective level). Compliance level with nicotine patch is high.
