The New Yorker ,2007 Diary of a Detour Lesley Stern,2020-08-10 *Diary of a Detour* is film scholar and author Lesley

Stern's memoir of living with chronic lymphocytic leukemia. She chronicles the fears and daily experience of coming to grips with an incurable form of cancer by describing the dramas and delving into the science. Stern also nudges cancer off center stage by turning to alternative obsessions and pleasures. In seductive writing she describes her life in the garden and kitchen, the hospital and the library and her travels down the street to her meditation center across the border to Mexico and across the world to Australia. Her immediate world is inhabited with books, movies, politics and medical reports that provoke essayistic reflections. As her environment is shared with friends, chickens, a cat called Elvis, mountain goats, whales, lions and microbes, the book opens onto a larger than human world. Intimate and meditative, engrossing and singular, *Diary of a Detour* offers new ideas about what it might mean to live and think with cancer and with chronic illness more broadly. **Border**

Rhetorics D. Robert DeChaine, 2012-08-30 Undertakes a wide ranging examination of the US-Mexico border as it functions in the rhetorical production of civic unity in the United States. A border is a powerful and versatile concept variously invoked as the delineation of geographical territories, as a judicial marker of citizenship and as an ideological trope for defining inclusion and exclusion. It has implications for both the empowerment and subjugation of any given populace. Both real and imagined, the border separates a zone of physical and symbolic exchange whose geographical, political, economic and cultural interactions bear profoundly on popular understandings and experiences of citizenship and identity. The border's rhetorical significance is nowhere more apparent nor its effects more concentrated than on the frontier between the United States and Mexico. Often understood as an unruly boundary in dire need of containment from the ravages of criminals, illegal aliens and other undesirable threats to the national body, this geopolitical locus exemplifies how normative constructions of proper border relations reinforce definitions of US citizenship which in turn can lead to anxiety, unrest and violence centered around the struggle to define what it means to be a member of a national political community. **Zero Break** Matt Warshaw, 2004

An anthology of literary pieces and essays on surfing is complemented by classic and modern photographs and artwork and includes Mark Twain's nineteenth century description in *Roughing It* and Susan Orlean's essay on girl surfers in Maui.

The Publishers Weekly, 2005 Crime Alix Lambert, 2008 A bank robber goes on a spree. A man confesses to a murder he did not commit. A gangster tortures his accomplice. The perfect murder is attempted by two teenagers. These are just a few of the cases, fact and fiction, little known and legendary that Alix Lambert explores in her investigation of the nature of crime, both real and imagined. Throughout these compelling interviews with detectives, actors, murderers, film directors, prison inmates and authors, a constant theme emerges: Could I do that? Is it bad luck or bad judgement that pushes someone over the edge? The boundaries between safety and danger aren't as defined as we'd like to believe. **BOOK JACKET** Fodor's San Diego Fodor's Travel Guides, 2023-10-31 Whether you want to find the perfect beach, visit the San Diego Zoo or spend the day in Coronado, the local Fodor's travel experts in San Diego are here to help.
