Volume 1 Jim Brinegar, 2015-07-05 The Conversational Science series is a new or at least different approach to preparing for the latest version of the Medical College Admissions Test This bit is only my personal opinion but I think the easiest way to do well on the MCAT is to understand the material There s one heck of a lot of material though so how should you study the things you ve already covered in class This study guide is written in an informal tone of voice because you and I are having a conversation and not a lecture This study guide contains a limited number of crudely drawn figures You re the person studying for the exam so I ask you to draw the rest of the figures for yourself A figure that you draw yourself even if you have no artistic talent whatsoever teaches you much more than you can learn by simply looking at the beautiful full color professionally drawn figures in your textbooks This study guide has a limited number of review questions so you can check if you really did understand one chapter before you move on to the next This study guide DOES NOT contain any practice exams This is because in my opinion again based on my experience as a student and as an instructor the questions in the practice exams of many study guides are too often confusing poorly written and not at all like the actual questions on the actual exam And sometimes the answers given for some questions on some practice exams are just plain wrong This study guide may not be for everyone but I think there s a good chance it ll help you convince yourself that you really do understand the material Medical College Admissions Test MCAT and MCAT2015 are registered trademarks of the Association of American Medical Colleges which neither sponsors nor endorses this product I took the MCAT way back in the middle of the 1980s and I did very well if I do say so myself Survey of Science History & Concepts Package Master Books, 2013-08-01 Take a comprehensive survey of science with this four book set Whether setting the stage for advanced courses or doing an important review of concepts these books are designed to teach a lot of information in a very concise way Go beyond just the facts to meet the scientists and scholars who discovered and successfully paired a search for truth with solid Christian worldviews 1 Year Curriculum 10th 12th Grade 1 Credit Study Guide for Moore/Stani's Chemistry: the Molecular
