confident individuals can bear themselves better than those who have lower sense of the self They are the achievers the people of the limelight the center of society They walk straight speak their meanings very well and influence people both subtly and obviously In short they are those who care recognizable even from afar Sometimes self confident people are very much loved by society It is perhaps due to their charisma or they are by nature very amiable However there are those self confident individuals who just by leaving makes the room lighter These are two very dissimilar displays of self confidence One destroys a person s credibility and the other intensifies his personality And obviously you would not want the consequences of being too confident of yourself that the people no longer see you as effective instead they see you as annoyance to their daily affairs Self confidence comes from within Outside stimulation may help but it would all still boil down to knowing yourself and using that knowl edge to gain confidence To get self confidence you must realize that your limitations must not limit you and your attributes must not destroy you Instead use all these factors to develop a personality that would be productive for you and all those that surround you
