Business Venezuela ,2006 Analysis and evaluation of

chosen resources of Volkswagen in Germany and in respect of the Indian minicar market and the role of Suzuki as a Joint Venture prospect Jan Kubik, 2011-02-28 Research Paper undergraduate from the year 2010 in the subject Business economics Operations Research grade 1.0 Munich University of Applied Sciences language English abstract Volkswagen Group is based in Wolfsburg Germany ranks among the world's leading automobile manufacturer and is the largest carmaker in Europe. Therefore the Group possesses 11.3 percent share of the world passenger car market and holds 20.9 percent of the European automobile market. The Volkswagen Group with its nine brands Audi SEAT Skoda Volkswagen Volkswagen Commercial Vehicles Bentley Bugatti Lamborghini and Scania offers a broad product range from low consumption small cars to luxury class vehicles. For simplicity reasons the Volkswagen Aktiengesellschaft as parent company of the Volkswagen group is referred to as Volkswagen or VW where as the whole Volkswagen Group is either referred to as Volkswagen VW Group or Group within this paper. Despite the Group's international alignment it is currently only slightly represented in India. As it has entered the Indian passenger car market ten years ago significantly later than its Japanese and American competitors its current market share amounts only to two percent. Because potential customers are increasing the automotive industry is getting more dynamical and international and government's politics are focusing on economic growth India could become the future key market to the automotive industry. Due to the eminently strong growth of the Indian main street and the proceeding social change as the younger generation wants to go for a distinguished career especially the Indian minicar market's IMM potential is higher than ever before. As Volkswagen Group is alive to the importance of this market but lacking in appropriate knowledge how to produce cheapest cars in large scale production it considers strengthening the cooperation with Suzuki Motor Corporation and Volkswagen by building a Joint Venture JV. Thus the already existing cross share holding as shown in Appendix A could evolve into a new common entity. This paper analyses appraises and evaluates in what way this strategy is promising for Volkswagen and how far Suzuki is an appropriate partner. Therefore this assignment contributes to the assessment of the strategy's prospect of success. Therefore Appendix B was used partly as framework in this paper. Firstly Volkswagen Group's vision and history is epitomised and its objectives are outlined. Secondly chosen resources of Volkswagen are revealed and it is analysed how far they are transferable to the mentioned market and to which extent the JV with Suzuki Motor
