Mumpower,2012-12-06 Public attention has focused in recent years on an array of technological risks to health safety and the
environment At the same time responsibilities for technological risk as sessment evaluation and management have grown in
both the public and private sectors because of a perceived need to anticipate prevent or reduce the risks inherent in moderm
society In attempting to meet these responsibilities legislative judicial regulatory and private sector institutions have had to
deal with the extraordinarily complex problems of assessing and balancing risks costs and benefits The need to help society
cope with technological risks has given rise to a new intellectual endeavor the social and behavioral study of issues in risk
evaluation and risk management The scope and complexity of these analyses require a high degree of cooperative effort on

Agents of Subversion John P. Delury,2022-10-15 Agents of Subversion reconstructs the remarkable story of a botched
mission into Manchuria showing how it fit into a wider CIA campaign against Communist China and highlighting the intensity
and futility of clandestine operations to overthrow Mao In the winter of 1952 at the height of the Korean War the CIA flew a
covert mission into China to pick up an agent Trained on a remote Pacific island the agent belonged to an obscure anti
communist group known as the Third Force based out of Hong Kong The exfiltration would fail disastrously and one of the
Americans on the mission a recent Yale graduate named John T Downey ended up a prisoner of Mao Zedong s government
for the next twenty years Unraveling the truth behind decades of Cold War intrigue John Delury documents the damage that
this hidden foreign policy did to American political life The US government kept the public in the dark about decades of
covert activity directed against China while Downey languished in a Beijing prison and his mother lobbied desperately for his
release Mining little known Chinese sources Delury sheds new light on Mao s campaigns to eliminate counterrevolutionaries
and how the chairman of the Chinese Communist Party used captive spies in diplomacy with the West Agents of Subversion is
an innovative work of transnational history and it demonstrates both how the Chinese Communist regime used the fear of
special agents to tighten its grip on society and why intellectuals in Cold War America presciently worried that subversion
