### Front Panel Controls

|                 |                                                                                                                                                                                                         |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>MOX</b>      | Manually operated transmit. Similar to PTT on a microphone.                                                                                                                                             |
| <b>VOX</b>      | Voice operated transmit in voice modes, and "semi-break-in" in CW.                                                                                                                                      |
| <b>METER</b>    | Toggles TX meter between: ALC, SWR, COMPRESSION Level, VOLT final amplifier supply, and AMP the final amplifier current.                                                                                |
| <b>IPO</b>      | Intercept Point Optimization. Yaesu's term for bypassing the RF input amplifier. Useful for reducing noise and interference when receiving adequately strong signals that do not require the RF preamp. |
| <b>ATT</b>      | Selects RF input attenuation level: 6, 12 or 18 db.                                                                                                                                                     |
| <b>AGC</b>      | AGC mode selector switch: AGC Fast, AGC Slow, AGC OFF                                                                                                                                                   |
| <b>MIC GAIN</b> | Knob adjusts microphone gain for SSB and AM modes.                                                                                                                                                      |
| <b>AF GAIN</b>  | Adjusts the main receiver's audio volume.                                                                                                                                                               |
| <b>RF PWR</b>   | Adjust to set transmit output power: range 10-100 watts.                                                                                                                                                |
