Charter School Report Card Shawgi Tell, 2016-04-01 What is a charter school Where do they come from Who promotes them and why What are they supposed to do Are they the silver bullet to the ills plaguing the American public education system This book provides a comprehensive and accessible overview and analysis of charter schools and their many dimensions It shows that charter schools as a whole lower the quality of education through the privatization and marketization of education The final chapter provides readers with a way toward rethinking and remaking education in a way that is consistent with modern requirements Society and its members need a fully funded high quality public education system open to all and controlled by a public authority

The Chicago High Schools Report Card Linda Thornton, 2006-04 This savvy guide demystifies the complicated high school admissions process and compiles all of the information into one source so that families can make a well informed decision when choosing their child's school Listing more than 140 schools by category Catholic Independent and Public and providing general information about each one this resource helps parents narrow their search by outlining each school's curriculum and philosophy costs class sizes percentage of college bound graduates and public transportation options The accompanying timeline begins with the sixth grade and outlines important topics of discussion to prepare parents and prospective students along the way

School Reform, Corporate Style Dorothy Shipps, 2006 Like other big city school systems Chicago's has been repeatedly reformed over the last century Yet its schools have fallen far short of citizens expectations and left a gap between the performances of white and minority students Many blame the educational establishment for resisting change Other critics argue that reform occurs too often still others claim it comes not often enough Dorothy Shipps reappraises the tumultuous history of educational progress in Chicago revealing that the persistent lack of improvement is due not to the extent but rather the type of reform Throughout the twentieth century managerial reorganizations initiated by the business community repeatedly altered the governance structure of schools as well as the relationships of teachers to children and parents but brought little improvement while other more promising reform models were either resisted or crowded out Shipps chronicles how Chicago's corporate actors led abetted or restrained nearly every attempt to transform the city's school system then asks whether schools might be better reformed by others To show why city schools have failed urban children so badly she traces Chicago's reform history over four political eras revealing how corporate power was instrumental in designing and revamping the system Her narrative encompasses the formative era of 1880-1930 when teachers unions moderated business plans previously unexplored business activism from 1930 to 1980 when civil rights dominated school reform and the decentralization of the 1980s She also covers the uneasy cooperation among business associations in the 1990s to install the mayor as head of the school system a governing regime now challenged by privatization advocates Business people may be too wedded to a stunted view of educators to forge a productive partnership for change Unionized teachers bridle at the

second class status accorded them by managers If reform is to reach deeply into classrooms Shipp concludes it might well require a new coalition of teachers unions and parents to create a fresh agenda that supersedes corporate interests This study clearly shows that in Chicago as elsewhere urban schooling is intertwined with politics and power By reviewing more than a century of corporate efforts to make education work Shipp makes a strong case that it s high time to look elsewhere perhaps to educators themselves for new leadership

The Parent-School Board Feuds Gerard Giordano,2024-10-02

During the COVID 19 pandemic parents were able to observe their children in online classes They were surprised by classroom discussions and assignments related to gender race ethnicity and religion along with the policies that were guiding curricula tests technology athletics discipline safety transportation funding and numerous other aspects of schools Parents began giving their advice to their school boards but when they were ignored they disrupted meetings wrote editorials created blogs staged rallies and lobbied state officials They were hoping to attract media attention and acquire political power and were stunned by their success TheParent School Board Feuds Essential Steps by Parents to Improve Schools recounts parent school board feuding about controversial classroom topics such as gender and race their disagreements about school policies including those affecting tests technology athletics and discipline and the impact that parents had during the pandemic and continue to have today

Service,1998-11-02 *Ghosts in the Schoolyard* Eve L. Ewing,2020-04-10 Failing schools Underprivileged schools Just plain bad schools That s how Eve L Ewing opens *Ghosts in the Schoolyard* describing Chicago Public Schools from the outside The way politicians and pundits and parents of kids who attend other schools talk about them with a mix of pity and contempt But Ewing knows Chicago Public Schools from the inside as a student then a teacher and now a scholar who studies them And that perspective has shown her that public schools are not buildings full of failures they re an integral part of their neighborhoods at the heart of their communities storehouses of history and memory that bring people together Never was that role more apparent than in 2013 when Mayor Rahm Emanuel announced an unprecedented wave of school closings Pitched simultaneously as a solution to a budget problem a response to declining enrollments and a chance to purge bad schools that were dragging down the whole system the plan was met with a roar of protest from parents students and teachers But if these schools were so bad why did people care so much about keeping them open to the point that some would even go on a hunger strike Ewing s answer begins with a story of systemic racism inequality bad faith and distrust that stretches deep into Chicago history Rooting her exploration in the historic African American neighborhood of Bronzeville Ewing reveals that this issue is about much more than just schools Black communities see the closing of their schools schools that are certainly less than perfect but that are theirs as one more in a long line of racist policies The fight to keep them open is yet another front in the ongoing struggle of black people in America to build successful lives and achieve true self determination

Kids These Days Karen

Sternheimer,2006-05-23 This book focuses on early childhood to late teen issues like kidnapping and child safety childhood obesity school safety and zero tolerance policies teen drivers hazing bullying and risk taking behavior Fear of and fear for youth is a rite of passage a common lament th **American Lutheran** ,1920 *Cities and Race* David Wilson,2007-01-24 This fascinating book examines the 1990s rise of a new black ghetto in rust belt America the global ghetto It uses the emergent perspective of racial economy to delineate a fundamental proposition historically neglected and marginalized black ghettos in a 1990s era of societal boom and bust have become more impoverished more stigmatized and functionally ambiguous as areas As these ghettos grow in size and become more stigmatized entities in contemporary society our understanding of them in relation to evolving cities and society has not kept pace This book looks to the heart of this misunderstanding to find out how race and political economy in cities dynamically connect in new ways racial economy to deepen deprivation in these areas This book is an essential read for students of geography urban studies and sociology

Spectacular Things Happen Along the Way Brian D. Schultz,2018-10-12 This celebrated narrative captured the attention of educators and the media by depicting the journey of one teacher and his students juxtaposed against the entrenched bureaucracy of Chicago s public education system This second edition examines how school reform continues to fail students in urban contexts and offers compelling updates on students *Miseducating for the Global Economy* Gerald Coles,2018-06-26 How the American education system became a global economy industry All across the United States corporations politicians economists educators and now most remarkably Ivanka Trump cry out for new education for the twenty first century economy Meanwhile millions of Americans face increasing difficulty finding well paying secure jobs But the current employment crisis is not so much due to the educational system as it is to a sustained corporate effort to keep the public in ignorance about the damage wrought by the global economy itself *Miseducating for the Global Economy* reveals that behind the going concern for global economy education lies capitalism s metastasizing indifference to human values to a fair distribution of resources to its radical restructuring of workplaces with an attendant intensification of work effort and to the genuine well being of workers and their families Gerald Coles s book provides a real education about the twenty first century global economy and what corporations are doing to prevent our learning about it Corporations and business organizations for instance resolutely withhold massive wealth that could be used to fund more realistic occupational education even as they skew educational curricula away from too much global economic awareness Coles describes the intellectually narrow and morally crippling effects of the corporate control of education how the imperative for profit maximizes the misunderstanding of communities nations and the environment even as it minimizes aesthetic appreciation cultural expression compassion itself But it is by understanding all this Coles argues that real change can begin Using this analysis educators parents educational organizations and activists can finally begin to craft schooling that truly serves students and advances global humanity **Investigating The Pedagogy Of Mathematics: How Do Teachers Develop**

Their Knowledge? Lianghuo Fan, 2014-07-31 The book introduces a background to the phenomena so blatantly disregarded in the reform movements on mathematics education the consideration of what is knowledge I find chapter 3 a very important contribution and one which should be recommended to all teacher educators A great contribution to the mathematics teacher education scholarship Teaching Innovations This book responds to the growing interest in the scholarship of mathematics teaching over the last 20 years the importance of teachers knowledge for effective teaching has been internationally recognised For many mathematics teachers the critical link between practice and knowledge is implied rather than explicitly understood or expressed This means it can be difficult to assess and thus develop teachers professional knowledge The present book is based on two studies investigating exactly how teachers developed their pedagogical knowledge in mathematics from different sources It describes The findings in this book have significant implications for teachers teacher educators school administrators and educational researchers as well as policy makers and school practitioners worldwide

citizens the language barriers that can prevent Latinos from full participation in both society and educational programs health care policies and the sometimes tragic consequences of the lack of medical insurance the role of extracurricular activities in keeping Latino students in school the twin calamities known as gentrification and urban blight This comprehensive book provides social workers and policymakers with wide ranging analyses of some of the pressing issues and social policies that affect Hispanics in the United States Latino Poverty in the New Century explores ways to keep Latino youth in high school promote community organization encourage Latinos to vote and increase your understanding of migration dynamics Containing current research and case studies this valuable book will help you comprehend the challenges that Latinos face in this country and respect the gains they have made in spite of the obstacles in their way

Liberating Schools David Boaz,1991-06-01 For the past decade Americans have been intensely concerned with the quality of American education which is hardly surprising given the importance of education to society and the growing evidence of problems in American education Nowhere are those problems more severe than in our inner cities where learning has all but ceased in many schools It was concern about inner city children that led the Cato Institute to convene a conference Education and the Inner City in Washington in October 1989 Most of the chapters in this volume were originally presented at that conference As concern about the quality of American education begins to lead Mericans toward major structural reforms the Cato Institute is pleased to present these essays We believe they make a major contribution to the national debate on education reform **Boom, Bust, Exodus** Chad Broughton,2016-08-31 Following the story of the displacement of a Maytag refrigerator plant from Galesburg Illinois to Reynosa Mexico in 2004 Boom Bust Exodus puts a human face on globalization exploring the social side of the fast moving changes sweeping across the U S and Mexico

Bankruptcy Reform Act of 1999--S. 625 United States. Congress. Senate. Committee on the Judiciary,1999 *The High School Teacher* ,1927 **Educational Entrepreneurship** Frederick M. Hess,2006-08-01 This lively and provocative book introduces this burgeoning field for readers concerned with K 12 education in the United States and with efforts to reform and improve it Entrepreneurship has emerged in recent years as an unprecedented and influential force in U S K 12 education Yet the topic has received surprisingly little serious or systematic attention Educational Entrepreneurship aims to fill this gap This timely volume addresses a number of central questions What is educational entrepreneurship and what does it look like Who are the educational entrepreneurs and what motivates them What tools do entrepreneurs need to be successful What policies or practices enable or impede entrepreneurship What would it mean to open up the education sector to more entrepreneurial activity An interesting and admirable range of contributors offers clusters of articles on the nature of educational entrepreneurship the political policy and legal contexts that face educational entrepreneurs various models of entrepreneurial activity the role of for profit organizations in K 12 education and possible future directions for educational entrepreneurs
