GIS Integrated Teaching on Secondary School Underachieving Students' Geography Learning Goals Soon Singh A/L Bikar Singh, 2021-06-28 Recent studies show that the number of students who select to study Geography in Malaysian secondary schools and their level of achievement in the subject has decreased The main factor is lack of motivation Over multiple decades a large and growing body of literature has indicated that ICT enhances students motivation to learn and their learning outcome The studies demonstrate that the use of ICT in teaching activities provides more fun in an authentic learning environment and increases learning autonomy interaction and collaboration It is therefore a rich opportunity for motivating students to study In addition despite an increased interest among scholars to investigate the impact of ICT

integrated Geography teaching on students motivation and achievement none have investigated the effects of GIS as a new technological teaching tool on students Geography learning goals and their learning outcomes The idea for this book originated from the author s PhD study to examine the effects of GIS based instruction on secondary school student Geography learning goals and their learning outcomes This book is highly beneficial for Geography teachers to use multiple teaching methods and pedagogies in a GIS integrated teaching environment to cultivate underachieving students mastery goal performance approach goal and learning and to decrease avoidance behaviour in learning the subject Although GIS is widely used in Malaysia it has not been embraced by the Malaysian education system and is absent from the Geography curriculums in the primary and secondary school contexts Hence writing of this book will also help the Curriculum Development Centre and Ministry of Education Malaysia develop a GIS based teaching module to enhance the learning motivation of Geography and improve the student level of achievement

Risk Management Competency Development in Banks Eric H.Y. Koh, 2019-06-04 This Pivot proposes an integrated approach to facilitate competency development in a more comprehensive way It examines this approach in the important but seldom studied context of risk management in banks Risk management weaknesses in banks have persisted in spite of regulatory changes This Pivot takes inspiration from three unlikely sports heroes to create the proposed integrated approach to risk management competency development bringing together three competency development concepts hitherto studied in isolation that are more comprehensive and more effective when combined The author studies the integrated approach under three specific objectives The concepts are first operationalized into 23 actionable indicators through literature reviews and experts reaffirmation Then the t test and discriminant analysis are used to identify how banks across different demographic groups place different emphases on these indicators Lastly these indicators are summarized into key themes via factor analysis
