PSYCHOLOGY: Research Innovations in young minds Dr Aneesh V Appu & Dr Subha Sachithanand, 2020-09-23 For the past years more emphasis has been given in understanding the level of cultural adjustment that individuals face on migrating to a new country. Not much attention has been given on studying repatriates. This phenomenological study deals with the experiences of 17 Indian repatriates, their emotional challenges and the various coping strategies that they had to employ in order to smoothen their repatriation process on returning to their home country. Six main themes were identified on applying thematic analysis to the individual semi structured interviews: relief from hardships faced in the host country, stronger bond with the home country, feeling of being an alien in your home country, dynamic factors upon repatriation, emotive encounters and coming to terms with chaos associated with repatriation. Findings from the study shows that the repatriates had faced many emotional challenges such as feeling of alienation, difficulty in adjusting to the old culture and getting a job, adjusting to the new work settings, grief on leaving the host country, idleness and laziness felt on repatriation, societal and familial pressure and financial struggles. Financial security, positive adjustment to the new work settings and the new income scale, lessons learned from the hostile experiences faced while abroad, pre arrangements done in the home country before repatriating and reintegrating host culture into home culture served as an effective coping strategy which eventually helped them in their successful repatriation over time.

Navigating the Doctoral Journey Amanda J. Rockinson-Szapkiw, Lucinda S. Spaulding, 2014-06-11 This co edited book provides doctoral candidates with a practical cross discipline handbook for successfully navigating the doctoral process from initial program selection to the final dissertation defense and preparing for the faculty interview. Invited chapters from established higher education experts cover topics ranging from university and program selection, preparing for comprehensive exams and dissertation research, self care and self management strategies and recommendations for maintaining personal and professional support systems. Each chapter includes strategies for success and practical tips including how to create a study guide for the comprehensive examination, how to create a professional support group, how to talk to your family about the doctoral process, how to select and work with a chair and committee, how to identify an appropriate research design, how to navigate the IRB process and how to master the research and writing process.
