**Clear Thinking when Drinking** Roman T. Solohub, 2007 This is a handbook on responsible alcohol consumption The author points out that most people around the world do drink moderately and he parts company with abstinence theorists who advocate a misleadingly negative representation of the phenomenon by focusing only on worst case scenarios Instead knowing that most young people will experiment at some point and to some degree with alcohol the author aims to provide a resource that educates readers about the facts and potential dangers of alcohol The books goal is to encourage moderation and responsibility **Encyclopedia of Cancer and Society** Graham A. **Cholesterol** Dr. Krishan Gupta, **Journal of the National Cancer Institute** , 2009 Educated Guesses Louise B. Russell, 1994-02-11 Standard recommendations such as annual Pap smears for women and prostate tests for men over forty are in fact simply rules of thumb that ignore the complexities of individual cases and the tradeoffs between escalating costs and early detection Russell argues By looking beyond these recommendations to examine conflicting evidence about the effectiveness of screening tests Russell demonstrates that medical experts recommendations are often far simpler and more solid looking than the evidence behind them It is not at all clear for example that annual Pap smears are effective enough in reducing deaths from cervical cancer to justify the enormous additional costs involved in testing all women every year rather than every three years Nor is there solid evidence for the value of prostate cancer screening despite recommendations that all men over forty be tested annually Exploding the Gene Myth Ruth Hubbard, 1999-05-01 How Genetic Information Is Produced and Manipulated by Scientists Physicians Employers Insurance Companies Educators and Law Enforcers

criminal court interactions When disadvantaged defendants try to learn their legal rights and advocate for themselves lawyers and judges often silence coerce and punish them Privileged defendants who are more likely to trust their defense attorneys delegate authority to their lawyers defer to judges and are rewarded for their compliance Clair shows how attempts to exercise legal rights often backfire on the poor and on working class people of color and how effective legal representation alone is no guarantee of justice Superbly written and powerfully argued Privilege and Punishment draws needed attention to the injustices that are perpetuated by the attorney client relationship in today s criminal courts and describes the reforms needed to correct them
